# DEODORIZER, DISINFECTANT, GERMICIDE

THEORY AND PRACTICE OF CORRECT SANATATION
PROTECT YOUR HOMES FROM CONTAGIOUS DISEASE
ITS USE IS ADOPTED BY THE BEST FAMILIES IN CANADA

BOARDS OF HEALTH, PUBLIC INSTITUTIONS, HOTELS, ETC.

Cholera, Smallpox, Diphtheria, Scarlet, Typhoid and other Fevers—to prevent such diseases is easier, cheaper and more intelligent and refined than to heedlessly breed them, and afterwards endeavor to cure them with medicine.

# A HISTORY OF CANADA

— BY —

CHARLES G. D. ROBERTS,

AUTHOR OF "APPLETONS' CANADIAN GUIDE BOOK," "THE FORGE IN THE FOREST," ETC.

Large octavo, bound in cloth, $2.

A complete history, with chronological chart and map of the Dominion of Canada and Newfoundland; containing nearly 500 pages, including appendix, giving the British North America and Imperial Acts in full.

"This history gives pleasure as well as facts. It is reliable without being dry. It is history and yet literature."

SIR JAMES EDGAR, K.C.M.G.

SPEAKER OF THE DOMINION HOUSE OF COMMONS.

ILLUSTRATED BY TWENTY-ONE BEAUTIFUL PHOTOGRAVURES.

Large octavo. Price, Cloth, $2.50; Half Morocco, $3.50.

It is rarely that such a history is undertaken by an author so specially fitted for his work as Sir James Edgar. For thirty years he has been more or less connected with the political and social life of Ottawa. These pages show his detailed and accurate acquaintance with it.

"An entirely impartial and thoroughly interesting account of our political headquarters, and of some of the principal men there."—*Mail and Empire.*

### 1900 NOT LEAP YEAR.

It is a generally accepted idea that every fourth year has an extra day added to the month of February, thus giving that month twenty-nine days, and the year 366—but there are exceptions, and 1900 is one of them. It is explained thus :—The solar year is about 11 min. 10 sec. less than 365¼ days : hence intercalation of one day in four years was too much. In course of centuries the error amounted to several days. To remedy this, Pope Gregory XIII. in 1582, omitted 11 days, and provided that the year ending each century should have 365 instead of 366 days, save when the *number* of the century is divisible by 4 ; so that 1700, 1800, and 1900 are not leap years, but the year 2000 is. This was called the Gregorian calendar ; but it was not adopted in Great Britain till 1752, when 11 days were struck out of the month of September.

## Explanation of the Articles in the Calendar.

Standard times* are given in all columns headed Toronto, Quebec and Winnipeg. For Latitude and Longitude of Observatory, see page 16.

The times* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 11.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The seven last columns are calculated for Lat. 45°, Long. 4h. 46m. W., but will serve with sufficient accuracy for the whole of Canada.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other Latitude is required, the number given in the column should be corrected by means of the following Table.

| Latitude | 42° | 43° | 44° | 45° | 46° | 47° | 48° | 49° | 50° |
|---|---|---|---|---|---|---|---|---|---|
| 1st Correction for Degrees | —5′ 10″ | —3′ 32″ | —1′ 49″ | 0′ 00″ | + 1′ 55″ | + 3′ 55″ | + 6′ 3″ | + 8′ 17″ | + 10′ 39″ |
| 2nd Correction for each minute of latitude | + 1″.6 | + 1″.7 | + 1″.8 | + 1″.9 | + 2″.0 | + 2″.1 | + 2″.2 | + 2″.4 | + 2″.5 |

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude 43° 20′.. 1st correction = — 3′ 32″ — 2nd correction + 1.7 × 20 = + 0′ 34″

" " 47° 40′.. " " = + 3′ 55″ " " + 2.1 × 40 = + 1′ 24″

" " 45° 10′.. " " = 0′ 0″ " " + 1.9 × 10 = + 0′ 19″

MOON'S PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

| Latitude | 42° | | | 43° | | | 44° | | | 45° | | | 46° | | | 47° | | | 48° | | | 49° | | | 50° | | |

* In the present Almanac, the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes, by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

## Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of the star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting* of a star, *add* the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

## PRINCIPAL PHYSICAL FEATURES OF CANADA.

The principal physical features of Canada are the Rocky Mountains and the Laurentian range, the plains of the North-West Territories, the great lakes and Hudson Bay and the Bay of Fundy, and the Mackenzie River and St. Lawrence River basins.

The great inland lakes, five in number, form, with their connecting rivers, a complete system of navigation from the head of Lake Superior to the Atlantic Ocean, a distance of 2,384 miles. They cover an area of about 100,000 square miles.

Other lakes of large size are Great Bear, 11,200 square miles; Great Slave, 10,100 square miles; Winnipeg, 9,400 square miles, and Athabaska, 4,400 square miles.

The principal mountains are the Rocky Mountains in the west, extending from the Arctic Ocean to the United States; they contain the highest points in the Dominion, among the chief being Mount Hooker, 16,760 feet; Mount Brown, 16,000 feet, and Mount Murchison, 15,700 feet.

The principal rivers are the St. Lawrence (with its tributaries, the Ottawa, the St. Maurice, the Richelieu and the Saguenay), the St. John, the Restigouche and the Miramichi rivers, flowing into the Atlantic Ocean; the Mackenzie, Coppermine and Great Fish rivers emptying into the Arctic Ocean; the Saskatchewan and Red, the Nelson, Churchill and Albany rivers flowing into the Hudson's Bay; the Fraser and Columbia emptying into the Pacific Ocean.

Hudson Bay is a large inland sea, having an area of 350,000 square miles. Including its two arms it has an extreme length north and south of 1,300 miles and a width across the bay proper of about 600 miles.

The Bay of Fundy, 170 miles long, and from 30 to 50 miles wide, nearly separates Nova Scotia from New Brunswick, the connecting Isthmus of Chignecto being about 15 miles wide.

The principal islands in Canada are Baffin Land, Prince Albert Land (which are the principal islands in the new district of Franklin), Vancouver and Queen Charlotte Islands in British Columbia; Prince Edward Island, Cape Breton Island and Anticosti in the Gulf of St. Lawrence.

The climate varies greatly. The average mean temperature is—in Prince Edward Island, summer, 61·9 degrees F., and 19·5 in winter; New Brunswick, summer 60 degrees and winter 19·0; Nova Scotia, summer 65·2 and winter 25·0; Quebec, 58·3 summer and 15· winter; Ontario, 63·0 summer and 19·8 winter; Manitoba, 60·1 summer and 0·8 winter; British Columbia, summer 61· and winter 32·4.

**The Dominion of Canada** has an area of about 3,315,647 square miles, or, including its water surface, 3,456,383 square miles, is about 3,500 miles from east to west and 1,400 miles from north to south, and consists of the provinces of Ontario and Quebec (formerly Upper and Lower Canada), Nova Scotia, New Brunswick, Manitoba, British Columbia, Prince Edward Island and the North-west Territories (which latter contain the vast territory formerly under the control of the Hudson's Bay Company). It therefore comprises the whole of the northern half of North America, with the exception of the United States Territory of Alaska on the west, and Labrador, which is under the control of the Government of Newfoundland, on the east. It is bounded on the north by the Arctic Ocean, on the west by the Territory of Alaska and the Pacific Ocean, on the south by the United States, and on the east by the Atlantic Ocean.

During the period covered by the table the train mileage increased 159 per cent.; the number of passengers carried 211 per cent., and the tons of freight transported 346 per cent. The earnings increased in the same period 169 per cent., and the working expenses, instead of keeping pace with the earnings, increased only 123 per cent. The last column in the table shows the proportion of expenses to receipts year by year.

There was an increase in the total receipts in 1897 of $1,807,707 as compared with the previous year. The working expenses showed an increase of $126,010, and the proportion of expenses to receipts was 67 per cent., being 2⅓ per cent. lower than in 1896.

# TIDE TABLES FOR HALIFAX, QUEBEC, AND ST. JOHN, N.B., 1899.

These Tide Tables, with Tidal Differences for other places, are issued by the Tidal Survey Branch of the Department of Marine and Fisheries of the Dominion of Canada. They are based upon direct observations of the tides, obtained by means of self-registering tide-gauges, which are kept in continuous operation day and night throughout the year. The records are reduced by the latest methods of analysis, and the computation of the tables is made in the Nautical Almanac Office, London.

The Tide Tables for Halifax are based upon the analysis of a record which was obtained during the years 1851, 1852, 1860 and 1861, with which there has been incorporated the record for one full year from the present tide gauge, namely, October, 1895, to November, 1896. The Quebec Tables are based upon the record for two complete years, from November, 1893, to January, 1896. The St. John Tables are based upon the record for two complete years also, from April, 1894, to May, 1896.

The TIDAL DIFFERENCES, when applied to the Tide Tables, give the time of high and low water at other places in Standard Time as indicated. The differences applicable to the Halifax Tables are derived from the Establishments given in the Admiralty list. They will therefore be correct at full and change of the moon, and approximate only at other times of the month. The differences for places above Quebec are derived from simultaneous observations at seven points during two complete months, obtained by the Department of Public Works. These differences are correct while the water in the River St. Lawrence is at its ordinary level; but the times of the tide which they give may be slightly early or late respectively, at the seasons when the water is unusually high or low. The differences below Quebec are based upon simultaneous observations from the tide-gauges at Quebec, Father Point, and Anticosti, taken throughout the two years 1895 and 1896, and compared with the differences of Establishment for intermediate points as given in the Admiralty list. These observations show that the time of the tide as given by these differences will be correct throughout the course of the month.

## HALIFAX TIDE TABLES.

TIDAL DIFFERENCES *for the Atlantic Coast of Nova Scotia.*

These differences when applied to the Halifax Tide Tables, give the time of High and Low Water at the places named, in Intercolonial Standard Time for the 60th meridian—which is four hours slower than Greenwich Mean Time.

Tide Tables are also computed by the Tidal Survey, and issued for the season of Navigation, from April to November, for the following ports:—Charlottetown, Pictou, and St. Paul Island in Cabot Strait; with tidal differences for Northumberland Strait, and other points on the south-western side of the Gulf of St. Lawrence. Also for Father Point, the Pilot Station on the St. Lawrence, and Ste. Croix Bar above Quebec.

The permanent and tidal sets of currents in various parts of the Gulf are also being investigated by Mr. Dawson, Engineer in charge of the Survey. The results hitherto obtained have been published, and copies of these publications may be had, on application, from the Department of Marine and Fisheries, Ottawa.

The Time used is Intercolonial Standard, for the 60th meridian: which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The Height is measured from a plane of reference at *one foot* below the level of Low Water at ordinary Spring Tides; which is the datum of the Admiralty Charts. Hence to obtain the height above the Admiralty Datum, deduct 1·0 foot from the height above given.

The Dry Dock.—To find the depth of water on the sill of this dock at any tide, *add* 22·4 feet to the height of High Water as above given.

The TIME used is Intercolonial Standard, for the 60th meridian; which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from a plane of reference at *one foot* below the level of Low Water at ordinary Spring Tides; which is the datum of the Admiralty Charts. Hence to obtain the height above the Admiralty Datum, deduct 1·0 foot from the height above given.

THE DRY DOCK.—To find the depth of water on the sill of this dock at any tide, *add* 22·4 feet to the height of High Water as above given.

The Time used is Intercolonial Standard, for the 60th meridian; which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The Height is measured from a plane of reference at *one foot* below the level of Low Water at ordinary Spring Tides; which is the datum of the Admiralty Charts. Hence to obtain the height above the Admiralty Datum, deduct 1·0 foot from the height above given.

The Dry Dock.—To find the depth of water on the sill of this dock at any tide, *add* 22·4 feet to the height of High Water as above given.

The Time used is Eastern Standard, for the 75th meridian; which is five hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The Height is measured from the level of Low Water at ordinary Spring Tides; that is, from the same datum as used for the Admiralty Chart of Quebec Harbour.

Levis Dry Dock.—To find the depth of water on the sill of this dock at any time, *add* 7·7 feet to the height of High Water as above given.

The TIME used is Eastern Standard, for the 75th meridian ; which is five hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The HEIGHT is measured from the level of Low Water at ordinary Spring Tides ; that is, from the same datum as used for the Admiralty Chart of Quebec Harbour.

LEVIS DRY DOCK.—To find the depth of water on the sill of this dock at any tide, *add* 7·7 feet to the height of High Water as above given.

The Time used is Intercolonial Standard for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The Height is measured from the level of Low Water at Spring Tides, as ascertained by the tide gauge observations themselves. (This level is approximately 1·4 foot lower than the datum to which the soundings on the Chart of St. John Harbour are referred, as nearly as this can now be ascertained.)

The Time used is Intercolonial Standard for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The Height is measured from the level of Low Water at Spring Tides, as ascertained by the tide gauge observations themselves. (This level is approximately 1·4 foot lower than the datum to which the soundings on the Chart of St. John Harbour are referred, as nearly as this can now be ascertained.)

The Time used is Intercolonial Standard, for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The Height is measured from the level of Low Water at Spring Tides, as ascertained by the tide gauge observations themselves. (This level is approximately 1·4 foot lower than the datum to which the soundings on the Chart of St. John Harbour are referred, as nearly as this can now be ascertained.)

## TABLE OF REFRACTION,

The barometer being at 30 inches and the attached thermometer at 50°, or the outside at 47°; with the corrections for an increase of one inch in the barometer, and for a decrease of 1° in the thermometer, Fahrenheit.

The correction for an increase of altitude of one inch in the barometer or for a decrease of one degree in the thermometer, is to be added to the *tabular refraction*, but when the barometer is lower than 30 inches, or the thermometer higher than 47°, the corrections become *subtractive*. When great accuracy is required, 0·003 inch should be deducted from the observed height of the barometer for each degree that the thermometer near it is above 50°, and the same quantity added for an equal decrease.

Every race and every religion are represented in the British Empire. E. G. Ravenstein says: "Of Europeans there are about 50,000,000. There are 54,865,000 Christians; 83,283,000 Mohammedans; 232,646,000 Buddhists, Hindus and Confucians, and 31,570,000 heathen in the Empire." Ravenstein makes the population of the Empire over 402,000,000. The figures in this table, with exception of Canada, are from the Statesman's Year-Book, 1897.

# CANADIAN TARIFF OF CUSTOMS.

## MEANING OF TERMS USED.

In this Act, and in any other Act relating to customs, unless the context otherwise requires,—

The initials "n. e. s." represent and have the meaning of the words "not elsewhere specified";

The initials "n. o. p." represent and have the meaning of the words "not otherwise provided for";

The expression "gallon" means an imperial gallon;

The expression "ton" means two thousand pounds avoirdupois;

The expression "proof" or "proof spirits," when applied to wines or spirits of any kind, means spirits of a strength equal to that of pure ethyl alcohol compounded with distilled water in such proportions that the resultant mixture shall at a temperature of sixty degrees Fahrenheit have a specific gravity of 0·9198 as compared with that of distilled water at the same temperature;

The expression "gauge," when applied to metal sheets or plates or to wire, means the thickness as determined by Stubbs's standard gauge;

The expression "in diameter," when applied to tubing, means the actual inside diameter;

The expression "sheet," when applied to metals, means a sheet or plate not exceeding three-sixteenths of an inch in thickness;

The expression "plate," when applied to metals, means a plate or sheet more than three-sixteenths of an inch in thickness.

## FISH FROM UNITED STATES AND NEWFOUNDLAND.

The whole or part of the duties hereby imposed upon fish and other products of the fisheries may be remitted as respects either the United States or Newfoundland, or both, upon proclamation of the Governor in Council, which may be issued whenever it appears to his satisfaction that the Governments of the United States and Newfoundland, or either of them, have made changes in their tariffs of duties imposed upon articles imported from Canada, in reduction or repeal of the duties in force in the said countries respectively.

## EXPORT OF GAME PROHIBITED.

The export of deer, wild turkeys, quail, partridge, prairie fowl and woodcock, in the carcase or parts thereof, is hereby declared unlawful and prohibited; and any person exporting or attempting to export any such article shall for each offence incur a penalty of one hundred dollars, and the article so attempted to be exported shall be forfeited, and may, on reasonable cause of suspicion of intention to export, be seized by any officer of the customs, and, if such intention is proved, shall be dealt with as for breach of the customs laws: Provided, that this section shall not apply to the export, under such regulations as are made by the Governor in Council, of any carcase or part thereof of any deer raised or bred by any person, company or association of persons upon his or their own lands.

## DUTIES ON MOLASSES AND SYRUPS.

Regulations respecting the manner in which molasses and syrups shall be sampled and tested for the purpose of determining the classes to which they belong with reference to the duty chargeable thereon shall be made by the controller of customs, and the instruments and appliances necessary for such determination shall be designated by him and supplied to such officers as are by him charged with the duty of sampling and testing such molasses and syrups; and the decision of any officer (to whom is so assigned the testing of such articles) as to the duties to which they are subject under the tariff shall be final and conclusive, unless upon appeal to the commissioner of customs within thirty days from the rendering of such decision, such decision is, with the approval of the controller, changed; and the decision of the commissioner with such approval shall be final.

## DUTIES ON WINES AND SPIRITS.

In the case of all wines, spirits, or alcoholic liquors subject to duty according to their relative strength of proof, such strength shall be ascertained either by means of Sykes's hydrometer or of the specific gravity bottle, as the controller of customs directs; and in case such relative strength cannot be correctly ascertained by the direct use of the hydrometer or gravity bottle, it shall be ascertained by the distillation of a sample and the subsequent test in like manner of the distillate.

## MEDICINAL AND TOILET PREPARATIONS.

All medicinal or toilet preparations imported for completing the manufacture thereof, or for the manufacture of any other article by the addition of any ingredient or ingredients, or by mixing such preparations, or by putting up or labelling the same, alone or with other articles or compounds, under any proprietary or special name or trade mark, shall be valued for duty under the provision of subsection two of section sixty-five of *The Customs Act*, as amended by section fifteen of chapter fourteen of the statutes of 1888.

## MEDICINAL PREPARATIONS TO BE LABELLED.

All medicinal preparations, whether chemical or other, usually imported with the name of the manufacturer, shall have the true name of such manufacturer and the place where they are prepared, and the word "alcoholic" or "non-alcoholic," permanently and legibly affixed to each parcel by stamp, label or otherwise; and all medicinal preparations imported without such names and word so affixed may be forfeited.

## DUTY ON PACKAGES.

Packages shall be subject to the following provisions:

All bottles, flasks, jars, demijohns, carboys, casks, hogsheads, pipes, barrels, and all other vessels or packages, manufactured of tin, iron, lead, zinc, glass or any other material capable of holding liquids, and all packages in which goods are commonly placed for home consumption, including cases, not otherwise provided for, in which bottled spirits, wines or malt liquors or other liquids are contained, and every package being the first receptacle or covering inclosing goods for the purpose of sale, shall in all cases, not otherwise provided for, in which they contain goods subject to an *ad valorem* duty or a specific and *ad valorem* duty, be charged with the same rate of *ad valorem* duty as is to be levied and collected on the goods they contain, and the value of the packages may be included in the value of such goods;

All such packages as aforesaid containing goods subject to a specific duty only, and not otherwise provided for, shall be charged with a duty of twenty per cent. *ad valorem*;

Packages not hereinbefore specified, and not herein specially charged with or declared liable to duty, and being the usual and ordinary packages in which goods are packed for exportation, according to the general usage and custom of trade, shall be free of duty;

All such special packages or coverings as are of any use, or apparently designed for use other than the importation of the goods they contain, shall be subject to the same rate of duty as would thereon be levied if imported empty or separate from their contents;

Packages (inside or outside) containing free goods shall be exempt from duty when the packages are of such a nature that their destruction is necessary in order to release the goods.

## PENALTY FOR HAVING BLANK INVOICE WITH CERTIFICATE OF CORRECTNESS.

Any person who, without lawful excuse, the proof of which shall be on the person accused, sends or brings into Canada, or who, being in Canada, has in his possession, any bill-heading or other paper appearing to be a heading or blank capable of being filled up and used as an invoice, and bearing any certificate purporting to

show, or which may be used to show, that the invoice which may be made from such bill-heading or blank is correct or authentic, is guilty of an indictable offence and liable to a penalty of five hundred dollars, and to imprisonment for a term not exceeding twelve months, in the discretion of the court, and the goods entered under any invoice made from any such bill-heading or blank shall be forfeited.

AFFIDAVIT OF IMPORTER CLAIMING LOWER RATE OF DUTY ON CERTAIN GOODS.

With respect to goods imported for manufacturing purposes that are admissible under this Act for any specific purposes at a lower rate of duty than would otherwise be chargeable, or exempt from duty, the importer claiming such exemption from duty, or proportionate exemption from duty, shall make and subscribe to the following affidavit or affirmation before the collector of customs at the port of entry, or before a notary public or a commissioner for taking affidavits :

I, (*name of importer*) the undersigned, importer of the (*names of the goods or articles*) mentioned in this entry, do solemnly (*swear or affirm*) that such (*names of the goods or articles*) are imported by me for the manufacture of (*names of the goods to be manufactured*) in my own factory, situated at (*name of the place, county and province*), and that no portion of the same will be used for any other purpose or disposed of until so manufactured.

BRITISH PREFERENTIAL TARIFF.

On and after the 1st day of August, 1898, section 17 of the said Act shall be repealed, and the following shall be substituted therefor :—

"Articles which are the growth, produce or manufacture of any of the following countries may, when imported direct into Canada from any of such countries, be entered for duty or taken out of warehouse for consumption in Canada at the reduced rate of duty provided in the British preferential tariff set forth in Schedule D to this Act:—(*a*) The United Kingdom; (*b*) The British colony of Bermuda; (*c*) The British colonies, commonly called the British West Indies, including the following : the Bahamas, Jamaica, Turks and Caicos Islands, the Leeward Islands (Antigua, St. Christopher-Nevis, Dominica, Montserrat, and the Virgin Islands, the Windward Islands (Grenada, St. Vincent and St. Lucia), Barbados, Trinidad and Tobago; (*d*) British Guiana; (*e*) Any other British colony or possession the customstariff of which is, on the whole, as favourable to Canada as the British preferential tariff herein referred to is to such colony or possession.

Provided however, that manufactured articles to be admitted under such preferential tariff shall be *bona fide* the manufactures of a country or countries entitled to the benefits of such tariff, and that such benefits shall not extend to the importation of articles into the production of which there has not entered a substantial portion of the labour of such countries. Any question arising as to any article being entitled to such benefits shall be decided by the Minister of Customs, whose decision shall be final.

"Raw sugar, including all sugar described in item 436 of Schedule A, may, when imported direct from any British colony or possession, be entered for duty or taken out of warehouse for consumption in Canada at the reduced rate of duty provided in the British preferential tariff.

"The Minister of Customs, with the approval of the Governor in Council, shall determine what British colonies or possessions shall be entitled to the benefits of the preferential tariff under clause (*e*) of subsection 1 of this section.

"The Minister of Customs may, with the approval of the Governor in Council, make such regulations as are deemed necessary for carrying out the intention of this section."

# THE FRENCH TREATY.

(*Circular from the Customs Department, dated 14th October, 1895.*)

I beg to send herewith, for your information and guidance, text of a proclamation by the Governor in Council, dated the 10th day of October, 1895, declaring the provisions of the French Treaty Act in force on, from and after the 14th October, 1895.

You are hereby advised that the said Act provides as follows :—

"Wines, sparkling and non-sparkling, common soaps, savons de Marseille (Castile soaps) and nuts, almonds, prunes and plums of French origin entering Canada shall enjoy the following advantages:

1. Non-sparkling wines gauging 15 degrees by the centesimal alcoholometer or less, or according to the Canadian system of testing, containing 26 per cent. or less of alcohol, and all sparkling wines shall be exempted from the surtaxe or *ad valorem* duty of 30 per cent.

2. The present duty charged on common soaps, savons de Marseille (Castile soaps) shall be reduced by one-half.

3. The present duty charged on nuts, almonds, prunes and plums shall be reduced by one-third.

The following articles of Canadian origin imported direct from that country accompanied by certificates of origin shall receive the advantage of the minimum tariff on entering France, Algeria or the French colonies:—

Canned meats.
Condensed milk, pure.
Fresh water fish, eels.
Fish preserved in their natural form.

It is understood that the advantage of any reduction of duty granted to any other power on any of the articles enumerated above shall be extended fully to Canada."

Your attention is also directed to the following provisions of "An Act respecting Commercial Treaties affecting Canada," Chap. 3, 58—59 Vict., viz. :—

"1. So soon as *The French Treaty Act*, 1894, chapter two of the Statutes of 1894, is brought into force by proclamation of the Governor General, the advantages granted to France by the treaty with that power mentioned in the said Act, with respect to its commerce with Canada, shall extend to any and every other foreign power which by reason of the operation of such treaty is, under the provisions of a treaty with Great Britain, entitled, in whole or in part, to the same or to the like advantages with respect to its commerce with Canada, to the extent to which in manner aforesaid such other foreign power is entitled thereto; and such advantages shall continue to so extend to such other foreign power so long as the said Act remains in force, or until the right of such other foreign power to such advantages under its treaty with Great Britain is sooner determined.

3. The advantages so granted to France by the said treaty shall extend also to Great Britain and to the several British colonies and possessions with respect to their commerce with Canada, so long as France continues to be entitled to such advantages; and during the period for which France is so entitled to such advantages, all laws inconsistent with the enjoyment thereof by Great Britain and such British colonies and possessions shall be suspended to the extent to which they are so inconsistent."

The Foreign Powers entitled to the same advantages under the provisions of the said Act, as are granted to France by the Treaty in question, with respect to its commerce with Canada, are :—Argentine Republic, Germany (Zollverein), Austria Hungary, Muscat, Belgium, Russia, Bolivia, Salvador, Chili, Sweden, Norway, Columbia, Spain, Costa Rica.

Satisfactory proof of the origin of the goods in question shall be furnished to the collector at the time of entry.

## GOLD IN CANADA.

Gold is found in many parts of Canada. Practically, however, its production is limited to the provinces of British Columbia and Nova Scotia. In the latter province, in 1896, there were 40 mines yielding 25,596 ounces of gold from 65,873 tons of quartz crushed. From 1862 to 1896 (both years included) the yield has been 627,866 ounces from 953,364 tons of stone crushed, which is equal to an average of 13$\frac{1}{10}$ dwt. per ton of 2,000 lbs. During this period the highest yield was 1 oz. 2 dwt. per ton, and the lowest 10 dwt. 4 grains.

The gold bearing quartz lodes of Nova Scotia occur in the Cambrian or Cambro-silurian measures, and belong chiefly to the class of "bedded" lodes, from which by far the greater bulk of the gold produced has come. The regular lodes vary from 2 to 30 inches in width; the average width may be taken to be from 6 to 12 inches. The richness of these lodes varies, running from $3 to $16 a ton. The general average for 35 years is about $12.85 a ton. The production of gold in Canada in the years 1892 to 1896 was as follows:—

| PROVINCES. | CALENDAR YEARS.—VALUE. | | | | |
|---|---|---|---|---|---|
| | 1892 | 1893 | 1894 | 1895 | 1896 |

## COINAGE IN CANADA.

In the early days all sorts of coin were used in British North America.

The first step taken in Canada for a revision of currency was in 1795, when, to remedy the evils resulting from the coined money in circulation being reduced in weight, debased in value and composed of every variety of pieces peculiar to all countries trading with this continent, an Act was passed which fixed a standard of value founded upon the average intrinsic worth of the gold and silver coins of Great Britain, Portugal, Spain, France and the United States.

Subsequently various Acts of the Legislatures established a valuation for these pieces, at which they were accepted in market overt.

Finally, in 1858, the Province of Canada adopted dollars and cents, pounds, shillings and pence as the only moneys of account. In 1871 the Federal Parliament passed the Act (Chap. 4, Acts of 1871) respecting the currency, which gave to the provinces of the Dominion a uniform currency, the single gold standard adopted being that of the British sovereign of the weight and fineness prescribed by the laws of the United Kingdom, to pass current at $4.86$\frac{2}{3}$. Provision was also made that, until otherwise ordered by Her Majesty's proclamation, the gold eagle of the United States, of the fixed weight of 10 pennyweights and 18 grains troy, and of a settled standard of fineness, should be legal tender in Canada. The same Act provided for a gold coinage for Canada, but special Canadian gold coinage has not been minted.

Silver coins were made legal tender to $10, and minor coin to 25 cents.

The silver coins in use are 50, 25, 20, 10 and 5 cents.

# FORMS OF GOVERNMENT THROUGHOUT THE WORLD.*

By Sir J. G. Bourinot, K.C.M.G., LL.D., F.R.S.C., Author of "How Canada is Governed," "The Story of Canada" (Nation's Series), and Other Works on the History and Government of Canada.

## I.—INTRODUCTION.

In this necessarily very brief survey of the forms of government throughout the world, I have found it most convenient for purposes of reference to arrange the subject under the headings of "countries," "executive power," and "legislative power," with some mention of local or municipal government under the latter. I commence with the British Empire, as embracing the countries in which Canadians have naturally the deepest interest. After Great Britain and Ireland follow the colonies and dependencies of the empire, including India, in alphabetical order. Then come the other countries of the world in the same alphabetical order, commencing with the absolute monarchy of savage Abyssinia, while all colonies and dependencies follow the reference to their particular sovereign state. I have also thought it advisable, for purposes of reference, to add the area and population of every country.

A review of the methods of government in the world show a survival of the oldest forms, though in a more or less modified state. We see still in America examples of tribal communities; in Asia and Africa the organized patriarchal forms, and the nomadic hordes and camp nations. We can see illustrations of the division of organized government that was many centuries ago given by that master of political science, the Greek Aristotle. Although his analysis of the forms of government was far from exhaustive, and his descriptions are not quite adapted to modern types, his enumeration still serves as a most excellent frame on which to hang an exposition of these forms for studies and discussion. We see monarchy, or the rule of one, in Russia, China and Turkey; aristocracy, or the rule of the few, in a waning degree in Germany and Austria, where nobles still exercise large power in houses of peers and in government; democracy, or the rule of the many, in the United States, in the South American republics, and in numerous countries to which popular government has extended itself within this century. We see also the truth of his remarks that monarchy can assume the degenerate shape of tyranny; aristocracy, the degenerate shape of oligarchy; and democracy, the degenerate shape of anarchy or mob rule. Under modern conditions aristocracy, as a form of government, is fast disappearing before the growth of democracy. In England the power of the peers was effectually broken by the introduction of responsible or parliamentary government in the reign of William III. and the passage of the first Reform Bill of 1832. The peers of the realm now derive their influence chiefly through their connection with the political party in power and the ministry that owes its existence to the commons. On the continent of Europe, the houses of peers are still powerful, but their power as a house is chiefly derived not from purely aristocratic influence, but from their share in the work of legislation as a branch of the legislature, and from the presence in the majority of cases of life or elected members, representing important class, educational, and other interests that bring the bodies into touch with the more popular elements of the country. Monarchy still exists as an important form of government. The present government of Russia is abnormal in the Europe of to-day, as abnormal as that of the Turk,—"a belated example of those crude forms of politics which the rest of Europe has outgrown." Otherwise the monarchies of Europe are limited by the resolutions of the popular parliaments. While monarchy is more or less limited and aristocracy seems on the point of disappearing, democracy, as a form of government, is in a fair way to prevail universally. Ever since the rise of popular education in the last century, and the success of parliamentary government in England, and popular government in the United States, the forces of popular thought have

*Revised and corrected from latest available authorities.

made a steady headway throughout the world. But we have seen that democracy may mean license and anarchy, as Aristotle long ago foresaw, and none but a Cæsar or a military leader can at times bring it back to reason and order. Citizens under monarchical rule may be, and often are, more fortunately placed as far as personal liberty is concerned than the citizens of pure republics in South America. In those countries tyranny as brutal as that of Caligula or Commodus has reigned. Out of fourteen presidents of the Bolivian republic, thirteen have died assassinated or in exile, and no one can safely conjecture the final fate of any of the former colonies of Spain. Even in the United States, despite the influence of English institutions and the English governing instinct for law and order—the saving principle always in that great federal republic—democracy at times, under the sway of mob rule and party spirit, has seemed clearly dangerous to public security and good government.

But a close study of forms of government is encouraging since it shows on the whole a steady growth of representative institutions, and the extension of popular rights under hopeful conditions of law and order. The theory of national sovereignty has been now accepted in France, Italy, Spain, Portugal, Holland, Belgium, Greece, and the Scandinavian States. In Germany it has not been yet acclimatized, but while the emperor's will is still a powerful factor in government and legislation, we can see the influence of the English principles of parliamentary and popular government. In Spain we still see the influence of the military spirit, and no one would be surprised to see bayonets in the Cortes at certain political crises. In France, the results of late have been encouraging, and it is quite possible that France may still give us additional evidences of the strength of parliamentary government outside of countries of English origin.

England is the mother of free governments throughout the world, even among nations that do not speak her tongue. Her principles have more or less influenced the great communities of Europe, as I have just shown. Her self-governing dependencies have closely followed her parliamentary system of government, and year by year we see colonies emerging from a state of pupilage and assuming large rights of self-government. It is true that in Jamaica there has been a step backward, but it has been forced by abnormal conditions of depressed trade and the existence of a large and idle coloured population, not equal to the requirements of freedom and citizenship. The British empire now comprises forty-two distinct and independent governments. In addition to these there are a number of scattered dependencies under the dominion or protection of England, which do not possess regularly formed administrations and vast territories controlled by English chartered companies protected by the queen. Of the forty-two administrations, eleven have elected assemblies and responsible government; the others are (1) crown colonies in which the crown "has the sole control of legislation while the administration is carried on by public officers under the control of the home government"; or (2) colonies "possessing representative institutions but not responsible government, in which the crown has no more than a veto on legislation, but the home government retains the control of public officers."

While the old world is the home of the parliament and a responsible ministry, the new world is that of a congress, and an executive not having seats in or directly responsible to the legislature. In some countries of Europe, and in England's dependencies, the English model is directly followed, but the South American republics have taken the American system with some modifications. In Canada alone, in America, is responsible or English parliamentary government seen in complete operation. Nevertheless it is England that has given representative government to the world at large. The system of the United States is based on English institutions of a century ago, and on the legislative system of the old English colonies.

The principle of federation has been fully expanded in the United States. It has formed the model for even Switzerland and Canada, and developed the idea throughout the world. In Germany, Austria, Hungary, Norway and Sweden, the West Indies, and in a few South American republics, we see this federal idea solving important problems of political government. In Australasia* there is now before the legislatures and people a scheme of union based

*See *infra*, New South Wales, Tasmania, South Australia and Victoria, who have alone voted on a scheme of federation.

on that of the United States and Canada, and the time is not far distant when those distant English communities will enter into the rank of federations. The federal idea in co-operation with responsible or representative government must sooner or later rule the world.

In every country possessing representative government we see a parliament or diet or congress, or some other assembly conveying the same political thought in the particular language of a nation or state. In the majority of cases, two houses prevail. Canada occupies an exceptional position among English dependencies with responsible government, since five out of the seven provinces of the dominion have abolished their legislative councils or upper branches of the legislature. Those countries in America that have followed the model of the United States possess a senate or upper chamber (Nicaragua excepted). One chambered legislatures prevail in Servia, Bulgaria, Greece, in the landtags of Austria, and in the diets of the minor German states except those of the free cities. Apart from these legislative bodies, the European communities have two chambers, varying from that of Norway (where, after a single general election, a certain number of the deputies returned are told to make an upper house,) to the ultra-aristocratic house of magnates, established from the earliest time under the ancient Hungarian constitution. Hereditary peers, generally mixed with life peers and elective peers, are still common in the second chambers of the continent of Europe; they are found in Cisleithan Austria, in Prussia, in Bavaria, in some of the smaller German states, and in Spain and Portugal. Life peers also occur by themselves but the crown is generally directed by the constitution to select them from certain classes of distinguished men. The best example of an upper house formed by this method is the Italian senate. In many states the mode of electing senators or peers is indirect, either the electorate is different, or provinces, or states or communes elect, while the deputies of the popular branch are taken from the nation at large. Even the senate of the United States is founded on inequality of representation. This distinction between the elections of the two houses shows a fundamental doubt as to the safety of the democratic theory.

The second or popular chamber, however, is the most powerful. All elected or second assemblies have the initiation of money votes, and taxation. The senate of the United States is probably the sole instance of a legislative body which is not inferior in legislative importance to the lower house, and possesses special functions—the approval or rejection of important appointments and the confirmation of treaties—not enjoyed by any similar body in the world. In the Spanish cortes, however, either house may take the initiative in all cases of legislation. In the Netherlands, the upper house cannot amend the bills of the lower branch, but must accept or reject them in their entirety. The British house of lords cannot initiate or amend a money bill; neither can the Canadian senate nor the upper houses of any of the British dependencies. The senate of the United States, however, may amend while it cannot originate a revenue or money bill. The upper house of the Prussian landtag cannot amend the budget. In some countries there is a union of the two houses to consider and pass bills on which one or the other disagrees. This is a useful precedent, though it is borrowed from the system of the United States. In some German states a permanent committee represents the house or houses then not sitting—a *quasi* responsible government in practice.

Universal suffrage prevails generally in North and South America, including the provinces of British Columbia, Manitoba, Ontario, New Brunswick and Prince Edward Island. In a few South American states, and in Massachusetts some educational tests are necessary. Costa Rica limits the franchise to those who can live respectably, and Mexico to "all respectable male adults." Hayti requires her negro citizens to have "some vocation"—a mere euphemism certainly. In the states of Colorado, Utah and Wyoming, women can vote at state, as well as at municipal elections, and the same is true of New Zealand and South Australia. In Europe, property, income, and the payment of taxes govern. The German reichstag and French chamber of deputies are chosen by general suffrage. But in no part of Europe except Austria can women vote even on a property qualification. In some countries a premium is placed on learning or education, viz.: Victoria, Tasmania, Ecuador, Bolivia, Chili, Cape of Good Hope, Malta, Hawaii, Hungary, Bremen, and other states. In Montenegro, men

capable of bearing arms are the electors. In a few countries the age of electors is limited to 25, but the ordinary age of manhood, 21, may be considered the rule.

Qualifications for members of the houses are required generally on the lines of age, but except in a few of the older states of Europe property qualification is now not necessary for the popular chamber. The age of the elected or appointed members of the upper houses is generally greater than that of the lower, 30 being the average. The number of members in upper houses—chiefly those elected or appointed—is, as a rule, lower than that of the popular chamber. The English house of lords, however, is not very much less than that of the commons, but, it must be remembered that only a small proportion of peers ever take their seats or vote. The Hungarian house of magnates actually counts a few more than the popular branch, while the new Japanese parliament preserves a parity. In the great majority of cases—not in Great Britain, however—members of legislative bodies are paid a sum, varying in amount, for expenses of the session and travelling. In France, Italy, Belgium and nearly all the Australasian colonies members receive passes over public railways.

The relations to the executive show great divergence. Countries of the English type, as I have already intimated, display the ministerial responsibility well developed. On the continent generally the connection is somewhat slighter. In Sweden and Norway it is undefined. To be sure the German constitution does not create a ministry responsible to the legislature. But the system of government "seems to be in a transition stage between the one-man rule of *quasi* absolutism under constitutional forms, and the liberal *regime* of modern times." There is no ministerial responsibility in Switzerland. Between the anglo-continental system and the congressional plan, there is a very wide divergence.

The sovereign of a monarchy and the president of a republic has, with a few exceptions, some share, often considerable, in legislation. The German emperor has vast powers;—the other European constitutional sovereigns far less. The American president has far greater power in legislation than the queen of England, since he can stop any congressional legislation when there is not a two-thirds majority in both houses to over-ride his veto. The king of Sweden has an absolute veto in Sweden, and promulgates various laws, though in his office as king of Norway he has a suspensive veto only, and possesses some temporary powers when the storthing is not sitting.

The French national assembly has the important duty of electing the president of the republic, while the Swiss federal republic—the home of the "initiative" and the "referendum"—chooses the entire executive or federal council. Members of this council can sit and speak but not vote in the chambers. The federal assembly elect the president and vice-president from among the members of this council. Here are more illustrations of distrust of democracy.

It may be said that the principles of representative and popular government have, indeed, made remarkable strides within the latter half of this century. The latest acquisition is Japan, which has already made a claim for a high place among civilized nations and proved its capacity to understand the principles of parliamentary government as well as the rules and conditions of modern warfare. Another half-century must witness an extraordinary development in the same direction of popular government. The great English poet wrote a political truth when he told us years ago:—

> "For through all the ages an increasing purpose runs,
> And the thoughts of men are widened with the process of the suns."

## II.—GOVERNMENT OF THE BRITISH EMPIRE.

Population, 345,000,000; with protectorates, about 382,000,000. Area without protected territory, 9,144,735 square miles.

Great Britain and Ireland.—Monarchy under parliamentary government. Population in 1891, 37,740,283: England, 27,560,000; Wales, 1,510,034; Scotland, 4,025,064; Ireland, 4,704,750. Area, 121,115 square miles: England, 51,000; Wales, 7,378; Scotland, 30,000; Ireland, 31,759.

Executive Power.

A sovereign, at present a queen, exercising all powers of executive government through a cabinet composed of

certain sworn privy councillors, who act as advisers of the crown, and conduct the public administration in accordance with law and constitutional usage. The crown is hereditary, but subject to such limitations as may be imposed by parliament—*i.e.*, by the crown, lords and commons. The head of the administration is the premier, or first minister, who is the choice of the crown; he selects the members of the cabinet and ministry, with the approval of the sovereign. The cabinet consists, at present, of 16 ministers, of whom the first lord of the treasury is generally premier. In addition to the inner or advisory council, called the cabinet, there are other ministers holding subordinate positions in the government, but who also retire with the cabinet in case of resignation or defeat. The whole number of persons comprising the government of England, including the chief officials for Scotland and Ireland, is 56. The government hold office as long as they retain the confidence of the house of commons. The common law is the basis of justice in Great Britain and Ireland, and in all colonies and dependencies of the crown. Wherever, in the latter, the civil or other law is in force, it will be stated below in the case of the particular colony.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.

The parliament of Great Britain is composed of the crown, lords and commons. The lords consists at present of 576—archbishops (2), bishops (24) and peers, the latter divided into 22 dukes, 22 marquesses, 119 earls, 26 viscounts, and 308 barons. Six princes of the royal blood have also seats in the house. Scotland is represented by 16 peers, elected for each parliament, and Ireland by 28 representative peers elected for life. The speaker is the lord high chancellor of England, who is a member of the cabinet, and retires with a change of government. The house of lords has co-ordinate powers of legislation with the house of commons, except as respects taxation or money bills. It cannot initiate or amend such bills, but it may under exceptional conditions reject them as a whole. The house of commons is the body where the chief political power rests. It consists of 670 members, elected by the legal electors of Great Britain and Ireland, as follows: England 465, Wales 30, Scotland 72, Ireland 103. All elections are now by ballot. Since the reform bill of 1832 the franchise has been widely extended to all classes who have a stake in the country. The suffrage is now divided among freeholders, copyholders, leaseholders, occupants of lands and tenements, and lodgers of a specified value. The house of commons lasts for seven years, unless sooner dissolved by the crown with the advice of the cabinet. Parliament is summoned, prorogued and dissolved by the sovereign. The speaker and deputy speaker of the commons are elected by the house for the duration of the parliament. Members do not require a property qualification, but they must be English citizens of the age of 21 years, not bankrupts, or idiots or criminals. Members are not paid. The system of local government has been much simplified quite recently. England and Wales are now divided into 62 administrative counties, including the city of London. In every county there is a council composed of aldermen and councillors. Aldermen are elected for six years, half of them retiring every third year. A councillor is elected for three years. The counties are again divided into "urban districts" and "rural districts," in which councils are elected. The parish continues to be a unit of local government, and the duties formerly performed by "vestries" are now discharged by "parish meetings" and "parish councils." In cities and towns the affairs are administered by municipal corporations, consisting of mayor, aldermen and burgesses; the mayor and aldermen are elected by the council, and the burgesses by ratepayers. Women can be elected only to district councils and parish councils, including the London vestries. Married as well as single women can vote at parochial elections. In Scotland there are parish councils, and municipal bodies in towns and cities. The councils of the latter consist of a provost and bailies. In Ireland there is no system of representative local government, but in counties the authority is the grand jury. In some towns and boroughs there are corporations consisting of mayor, aldermen and councillors. In the majority of towns local government is entrusted to commissioners, appointed by the Irish government.

## BRITISH COLONIES AND DEPENDENCIES, viz.:

**Aden**, a British protectorate and fortified station; estimated population, 42,000, mostly Bedouins; area, 75 square miles.

PERIM, a dependency of Aden, has five square miles, and a population of 2,000.

EXECUTIVE POWER.—Under the lieutenant-governor and council of Bombay, who are represented by a president or political resident, who is the commandant of the English troops in the peninsula.

**Andaman and Nicobar Islands**, a penal settlement; estimated population, 27,000; area, 2,508 square miles.

EXECUTIVE POWER.—Subject to government of Bengal (see India). A chief commissioner and superintendent are appointed by the Indian government.

**Ascension Island**, a naval station; area, 38 square miles.

EXECUTIVE POWER.—This rocky island is under the control of the English navy.

**Bahamas** (West Indies), representative but not responsible government; population, 47,565; area, 5,800 square miles.

EXECUTIVE POWER.—Governor appointed by the imperial government, as in other colonies and dependencies (except the provinces of the Dominion of Canada), assisted by an executive council of nine members, partly official and partly unofficial, having seats in one of the branches of the legislature.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Legislative council of nine members, chosen by the crown, and a representative assembly of 29 members elected on a small property qualification. Members must have a property qualification.

**Bahrein Islands**, English protectorate; estimated population, 25,000.

EXECUTIVE POWER.—Hereditary chief or sheik, who is a Mohammedan. English resident controls affairs.

**Baluchistan**, an independent feudatory state of India under the protectorate of England; population, 500,000, largely nomadic; area 106,000 square miles.

EXECUTIVE POWER.—A hereditary khan or chief, who is the head of a confederacy of chiefs, with undefined powers, and aided by an English political agent so far as British interests are concerned.

**Basutoland**, crown colony; population, 219,000, nearly all natives; area estimated at 10,300 square miles.

EXECUTIVE POWER.—A resident commissioner, appointed by the crown, acting under the direction of the high commissioner for South Africa.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Legislative authority is exercised by the commissioner by proclamation.

**Bechuanaland**, British crown colony; population, 70,000; area, 71,000 square miles.

EXECUTIVE POWER.—An administrator, deputy high commissioner, and chief magistrate, representing the governor of Cape Colony.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—This colony is to be annexed immediately to the Cape, at this time of writing.

**Bermudas**, with representative, but not responsible government; population, 15,600; area, 19 square miles.

EXECUTIVE POWER.—Governor, assisted by a privy council, appointed by the crown, and consisting of four official and two unofficial members.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—A legislative council of nine members, three of whom are official, and six unofficial, but all appointed by the crown. A house of assembly of 36 members, elected by a freehold qualification. Members must have a property qualification, and are paid 8s. a day for attendance. Hamilton and St. George have corporations.

**British Central Africa**, comprising Nyasaland and the British sphere of influence beyond; an English protectorate; estimated population, 5,000,000. Area, estimated at 500,000 square miles.

EXECUTIVE POWER.—The affairs of Nyasaland are administered by an imperial commissioner under the instructions of the secretary of state for foreign affairs, and the territory beyond, under British influence, by a commissioner directed by the British South Africa chartered company.

**British North Borneo**, a British protectorate; estimated population, 200,000; area, 30,000 square miles.

EXECUTIVE POWER.—The affairs of this protectorate are, under a royal charter, administered by a court of directors in London, with a governor, treasurer-general and residents appointed by them, but in the case of the governor the appointment must be approved by the foreign secretary of state. The Indian penal and other laws are administered with such modifications as are necessary. English magistrates are stationed in the several provinces.

**Barbadoes**, with representative, but not responsible government; population, 185,000; area, 166 square miles.

EXECUTIVE POWER.—Governor, assisted by an executive committee, officials, military officers, and such other persons as may be nominated by the queen, one member of the legislative council, and four members of the assembly, nominated by the governor.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—A legislative council of nine members, appointed by the queen, and a house of assembly of 24 members elected annually by the people on a very liberal franchise, including persons enjoying pensions.

**Brunei**, a British protectorate; population, 15,000; area, 280,000 square miles.

EXECUTIVE POWER.—A native state, with a Sultan as a ruler. The consular courts at Borneo have jurisdiction here, with appeals to the supreme court of the Straits Settlements.

**Canada**, Dominion of, a federal dependency, with representative and responsible government. Population, about 5,000,000; area, 3,315,647 square miles (exclusive of waters).

EXECUTIVE POWER.—The queen represented by a governor-general, appointed by the crown, and advised by a cabinet chosen from members of the privy council of Canada, and consisting of 12 ministers, holding departmental offices, besides one or more ministers without office. The government holds office as long as they have the confidence of the popular branch of parliament. The principles of parliamentary government are those of England. The common and criminal law of England prevails in all the provinces except Quebec, where the old French civil code and English criminal law are in force.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—The queen, senate, and house of commons. The senate is composed of 78 members, when full, appointed by the crown, possessed of property qualification and of the age of 30 years. The speaker is chosen by the crown. It has co-ordinate powers of legislation with the house of commons, except in the case of revenue, taxation, or money bills. Though it cannot initiate or amend such bills, it may reject them under extraordinary circumstances. Members are paid $1,000 for a session of over 30 days, and a sum for travelling expenses at the rate of 10 cents a mile going and returning. The house of commons consists of 213 members, elected from 1885 until 1898 on a dominion franchise, which was, in the latter year, repealed. Dominion elections will hereafter be run on the provincial systems, with some unimportant limitations. Members require no property qualification, but they must be of the age of 21, and British subjects, not disqualified by law. The speaker is chosen by the commons. Parliament has a legal existence of five years unless sooner dissolved by the governor-general, and meets once every year. Members are paid the same as senators. As Canada possesses a system of federal government, her legislative powers are limited to certain subjects of dominion or national import, set forth in the written constitution, or British North America Act, of 1867, with the residue of power not expressly given to the provinces in the federal government. All the provinces of Canada, except Prince Edward Island, possess a very complete system of municipal government, which entrusts certain *quasi* legislative powers to councils in municipal divisions known as cities, counties, townships, towns, villages and parishes, and elected by ratepayers. The rules and usages of procedure of the Canadian parliament and of the legislatures are based on those of the imperial parliament. The closure does not exist in Canada.

**Provinces and Territories of the Dominion**, viz.—Nova Scotia, population, 450,396; area, 20,600 square miles. New Brunswick, population, 321,263; area, 28,200. Prince Edward Island, population, 109,078; area, 2,000. Quebec, population, 1,488,535; area, 228,900. Ontario, population, 2,114,321; area, 222,000. Manitoba, population, 152,506; area, 116,021. British Columbia, population, 98,173; area, 407,300.

EXECUTIVE POWER.—In all these provinces there is a lieutenant-governor, appointed for five years by the governor-general of the Dominion in council, and aided by an executive council of eight or less members, who have seats in the legislature, and are responsible to the popular house in accordance with the principles of English parliamentary government.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—In Nova Scotia and Quebec there is a legislative council of 20 and 24 members respectively, appointed by the lieutenant-governor in council of each province. The assembly in these provinces consists of 38 and 73 members respectively, elected for four years in Nova Scotia, and for five years in Quebec, on a limited franchise based on property and income. The speaker of the legislative council is appointed by the crown. In the five other provinces there is only one house, an elected assembly, viz., Ontario, 94 members; New Brunswick, 41; P. E. Island, 30; Manitoba, 40; British Columbia, 33. In all these provinces there is manhood suffrage, limited by residence and citizenship, but in P. E. Island 15 are elected on a special real estate qualification.* In all of these provinces the duration of the assembly is four years, unless sooner dissolved. Sessions are annual. In all of the provinces the speakers of the assemblies are elected by the members. In both houses members are paid. Members require no property qualification. The legislative powers of the legislatures are defined by the British North America Act of 1867. Widows and unmarried women, when taxed, can vote at municipal elections in Ontario and the North-West Territories; in Manitoba and British Columbia, all women who are taxed in their own right can vote at such elections.

**North-West Territories**, divided into districts, viz.: Alberta, Assiniboia, Athabasca, Saskatchewan, with representative but not responsible government. In addition to these partially settled and organized districts, the following divisions have also been made in the unsettled region; Franklin, Keewatin, Mackenzie, Ungava, and Yukon. The total population of the N. W. T. is now about 125,000 souls; area, 2,497,427 square miles.

EXECUTIVE POWER.—A lieutenant-governor, appointed for five years by the governor-general of Canada in council, and assisted by a small executive council. The system is now practically responsible government, as in the old provinces.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—An assembly of 29 members chosen by ballot on a very liberal franchise based on residence and household qualification, Indians being excluded. It elects its own speaker, has a duration of four years unless sooner dissolved, and meets once every year. Members do not require a property qualification, and are paid a small indemnity. The legislative powers are defined by a dominion act, and are, as nearly as practicable, those of provincial assemblies. Municipal institutions have been established in towns and rural districts, in imitation of the Ontario system.

**Cape of Good Hope**, with responsible government; population, 1,528,000; area, 222,000 square miles.

EXECUTIVE POWER.—A governor, assisted by an executive council of six or more members, having seats in the legislature and holding office on the principles of responsible government. The Roman Dutch civil and English criminal laws are in force.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—A legislative council of 22 members elected for seven years, presided over, *ex officio*, by the chief justice, and a

*See Bourinot's "How Canada is Governed," p. 155.

house of assembly of 76 elected members. The members of the legislative council must have a property qualification, but any person not an alien or otherwise disqualified may be elected a member of assembly. Members of both houses are elected by ballot on a very liberal franchise, based on property, income or wages, and certain elementary educational requirements. Members are paid. The debate may be either in English or Dutch. The assembly elects its own speaker, meets annually, and has a duration of five years unless sooner dissolved. A municipal system has been established, and councillors are elected to boards and councils.

**Ceylon**, crown colony; population, 3,100,000; area, 25,365 square miles.

EXECUTIVE POWER.—Governor, aided by an executive council of five members, composed of officials and the commander-in-chief. The Roman Dutch law and Indian penal code prevail.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—A legislative council of 17 members, including the members of the executive council, four other office-holders, and eight unofficial members appointed by the crown. The governor is president. Government agents administer local affairs of the nine provinces.

**Channel Islands**: Jersey, Guernsey, Alderney, Sark, Herm, representative dependencies; population, 92,000; area, 73 square miles.

EXECUTIVE POWER.—One lieut.-governor appointed by the crown, for Jersey, and another governor in Guernsey for the other islands.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—States assembly, partly officials, partly elected members. The islands have their own laws and customs.

**Cyprus**, British protectorate by convention with Turkey; estimated population, 210,000; area, 3,584 square miles.

EXECUTIVE POWER.—High commissioner, or administrator, appointed by the English crown, and aided by an executive council of five members, including the administrator and commandant of the garrison.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Legislative council composed of the high commissioner (president *ex-officio*), six non-elective members or officials, and 12 elected members, nine chosen by the non-Mahometan population and three by the Mahometan population. The franchise, which can be exercised by British subjects and foreigners after five years' residence, is based on the payment of native taxes. The council may last five years unless sooner dissolved. The English and Ottoman law prevails, and English or native judges exercise jurisdiction according as the case affects Ottoman or foreign interests. Elective councils exist in towns for local purposes.

**Fiji** and dependencies, crown colony; population, 122 000; area, 423 square miles.

EXECUTIVE POWER.—Governor, aided by an executive council of three official members. Natives are employed in administrative positions throughout the islands.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Legislative council of 12 members, composed of the governor, as president, five official and six non-official members, all appointed by the crown. A system of local government exists and the natives are represented in village and district councils. An annual meeting of the high chiefs and representatives from each province is held under the presidency of the governor.

**Falkland Islands**, crown colony; population, 2,000; area, 4,000 square miles.

EXECUTIVE POWER.—Governor, aided by an executive council, composed of the governor and two officials.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Legislative council of six members, including the executive council, the judge, and two other unofficial members. The governor is president.

**Gambia**, crown colony; population, 15,000; area, 2,700 square miles.

EXECUTIVE POWER.—Administrator, aided by an executive council of five members.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Legislative council of six persons, composed of the administrator, the three officials who are executive councillors, and two non-official members, all appointed by the crown.

**Gibraltar**, military colony; population, 20,000; including military; area, two square miles.

EXECUTIVE POWER.—Governor, who is the general commanding and exercises all necessary powers of government.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—The management of local matters like water supply, drainage, health, etc., is entrusted to a body nominated by the governor, called the sanitary commissioners.

**Gold Coast Colony**, crown colony; population, 77,000; area, 39,060 square miles.

EXECUTIVE POWER.—Governor, aided by an executive council composed of the commandant and four officials.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Legislative council of the governor, the chief justice, members of the executive council and three non-official persons. For the purposes of administration the 13 districts of the colony are presided over by a commissioner.

**Guiana**, British, with representative but not responsible government; population, 288,000; area, 109,000 square miles.

EXECUTIVE POWER.—Governor assisted by an executive council chosen from members of the court of policy. The jurisprudence is the English criminal law and the Roman-Dutch code.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Combined court, consisting of a court of policy of seven official and eight elective members, and also of six financial representatives, the elected members being chosen by a very liberal franchise based on property, income, taxes and residence. Membership to the combined court and court of policy is based on a property and income qualification. Taxation and finance are dealt with by the combined court alone. Municipal institutions have been introduced into this colony.

**Honduras**, British; crown colony; population, 32,000; area, 7,562 square miles.

EXECUTIVE POWER.—Lieutenant-governor, assisted by an executive council of seven members, three of whom are unofficial.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Legislative council appointed by the crown, and consisting of three official and five unofficial members. The lieutenant-governor is president, *ex-officio*.

**Hong-Kong**, crown colony; population, 239,000; area, 30 square miles.

EXECUTIVE POWER.—Governor, aided by an executive council of six official persons.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Legislative council, composed of the governor (president), six official and five non-official members, three nominated by the crown, one by the justices of the peace, and one by the chamber of commerce. A Chinese is chosen one of the three non-official members.

**Isle of Man**, representative dependency; population, 55,600; area, 227 square miles.

EXECUTIVE POWER.—Governor and council of ecclesiastical and judicial dignitaries, appointed by the crown.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Court of Tynwald, composed of the governor, the council, which is also an upper house, and house of keys, consisting of 24 members, elected on a property qualification. The island has its own laws and customs, but the approval of the English crown is essential to every enactment.

**India.**—1. British provinces, population, 221,172,095. 2. Feudatory or native states, under British protection, population, 66,050,574. Total population of India, 287,223,574; area, 1,600,000 square miles.

EXECUTIVE POWER.—1. In England, a secretary of state for India, a member of the cabinet, aided by a council of 15 members, mostly former residents of India. 2. In India, a governor-general (or viceroy nominally) appointed by the queen, acting under secretary of state for India, and aided by a council of six members, also appointed by the queen. 3. British India is divided into 13 local governments and administrations. The

governors of Madras and Bombay (still called presidencies) and their councils are appointed by the queen or secretary of state; the lieutenant-governors of Bengal and the north-west provinces with Oudh and the Punjaub, by the governor-general; the chief commissioners of the other provinces by the same. 4. In the native and feudatory states the government is administered by the native princes with the assistance of an English resident or political agent.

LEGISLATIVE POWER AND LOCAL GOVERNMENT. — For India generally there is a legislative council, composed of the viceroy's council and some 12 or 16 other appointed members, for the purpose of making laws and regulations. In Bombay and Madras there are both executive and legislative councils. In the north-west provinces and Oudh there are only legislative councils. The chief commissioners have no legislative powers. In all the large towns there is a municipal system and committees or councils are elected by the ratepayers, but they cannot levy new taxes or pass by-laws without the assent of the provincial government.

---

**Jamaica**, crown colony; population, 640,000; area, 4,193 square miles.

EXECUTIVE POWER. — Governor, aided by a privy council of eight official and other persons appointed by the crown.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Legislative council composed of the governor (president with only a casting vote), five official members, five others appointed by the crown, and nine elected. The council can be dissolved at the end of every five years. Parochial boards exist in the parishes for local administrative purposes.

---

**Kuria Mura Islands**, under government of Aden. (See Aden above.)

---

**Labuan**, crown colony; population, 6,000; area, 31 square miles.

EXECUTIVE POWER.—Governor.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Governor can make ordinances.

---

**Laccadive Islands**, population, 15,000; none exceeds a mile in length. Subject to Madras presidency. (See India.)

---

**Lagos**, crown colony and protectorate, comprising certain adjacent islands; estimated population, 100,000; area, 1,069 square miles.

EXECUTIVE POWER.—Governor, aided by an executive council of three officials.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Legislative council, composed of the governor (president), four official and four non-official members appointed by the crown. Commissioners attend to administrative affairs in the several districts.

---

**Leeward Islands** (West Indies), federal colony with representative government in part; total population of islands, 128,000.

EXECUTIVE POWER.—Governor, aided by one common executive council of seven officials for the five presidencies or island governments, set forth below.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Legislative council consisting of 10 elective and 10 appointed members. The island council of Antigua elect four of the elective members; the legislative council of Dominica, two; the non-official members of the legislative council of St. Kitts and Nevis, four. The nominated members comprise four officials, and five non-official members, one from each of the island councils. The president is chosen from the latter bodies. The legislative council has concurrent legislative powers with the island legislature, but the general legislature prevails in case of clashing between the respective enactments. The general legislature meets annually, and has a duration of three years.

---

**Presidencies of Leeward Islands Federation, viz.:**

1—ANTIGUA, with dependencies of Barbuda and Redonda; population, 37,000; area, 106 square miles.

**France**, republic, with representative government and responsible ministry; population, about 40,000,000; area, 204,092 square miles.

EXECUTIVE POWER.—President, elected for seven years by a majority of the votes of the senate and chamber of deputies meeting as a national assembly. He chooses his cabinet of responsible ministers from the chamber of deputies. In case of a vacancy by death or resignation a new president is immediately elected by the united houses. He has the right of dissolving the chamber with the consent of the senate. His ministry, who are members of and responsible to the chamber, consists of nine heads of departments. In connection with the work of administration there is also a council of state, of which the minister of justice is president. Its special duty is to act as a consultative body in administrative matters. Members have the right of speech in both houses.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Congress or national assembly of two houses; a senate of 300 members and a chamber of 584 deputies. Senators must be 40 years old, and are elected for nine years—one-third retiring every three years. They are elected indirectly by an electoral body. The senate still contains a number of the life members originally elected by the united chambers, but henceforth all senators are elected. The chamber of deputies is elected for four years by universal suffrage. Deputies must be 25 years of age. Both senators and deputies are paid, and the presidents of the two houses receive a large sum for entertainment. Members travel free on all railways. Both houses have the same powers of legislation except in the case of financial measures, which must be first presented in the chamber of deputies. The departments of France have a system of local government in which the commune is the unit. The prefect or warden of the departments is appointed by the central government. In the communes there are elected councils, but their acts are subject to the approval of the prefect. Centralization is the governing principle in France.

**Portugal**, constitutional monarchy; population, 4,800,000; area, 34,038 square miles.

Executive Power.—Hereditary king, aided by a responsible cabinet and a consultative privy council.

Legislative Power and Local Government.—Cortes geraes or parliament of two houses; a house of peers, (camara dos pares) hereditary peers elected or appointed for life, peers, universities, and literary and scientific bodies having representatives; a house of 149 deputies (camara dos deputados), elected for four years by a very liberal franchise, regard being had to educational qualifications. Colonial members are paid, other deputies travel free by state railways. The sovereign cannot veto a law passed twice by the cortes. Madeira and the Azores form an integral part of the kingdom for legislative and administrative purposes. Portugal has a municipal system.

## Portuguese Colonies and Dependencies.

In Africa:

Cape Verde Islands, Guinea, Prince's and St. Thomas' Islands, Angola, Ambriz, Benguela and Massamedes and Congo, East Africa, Mozambique, and Lowrenço Marques. Total population, 5,400,000; area, 735,300 square miles.

In Asia:

Goa, Damao, Diu, Timor, etc., Macao, etc. Total population, 5,400,000; area, 743,204 square miles.

*Executive Power.*—Portuguese colonies have no legislatures or representation in the national cortes, like Spanish or French colonies, but their affairs are administered by governors, judges, and other functionaries appointed by the king, and all laws are initiated and promulgated by the same authority.

---

**Roumania** (Wallachia and Moldavia), constitutional monarchy; estimated population, 6,000,000; area, 48,310 square miles.

Executive Power.—King, aided by an executive council.

Legislative Power and Local Government.—Parliament of two houses; a senate of 120 members, elected for eight years, by electoral colleges, universities being represented; a chamber of 183 deputies elected by electoral colleges for four years. The franchise is very liberal and encourages educational qualifications. Members are paid. Senators must be 40 years of age; deputies, 25. The districts or provinces have a system of local government fairly liberal.

---

**Russia**, the empire of, absolute monarchy; population, 119,000,000; area, 8,644,100 square miles.

Executive Power.—Hereditary emperor (or czar of all the Russias), aided by a council of state, a ruling senate, a holy synod and a committee of ministers, in whose hands are entrusted the supervision of all the secular and religious affairs of the empire. All the work of government is in the hands of committees, cabinets or departments. Bureaucracy is the essence of government in the Russias.

Legislative Power and Local Government.—All legislative and administrative power is in the emperor and his councils. The empire is divided into viceroyalties, governments and districts, governed by governors-general, appointed and controlled directly by the emperor. Military governors are established in some provinces. Centralized government rules in Russia. The only shadow of local self-government is to be seen in the mirs or assemblies of the communes or parishes of European Russia. These "mirs" elect certain officers for taxation and purely local purposes, and are relics of old Aryan institutions which survived in the village assemblies of India and Germany, and originated the township government of England and New England. In the provinces, towns and cities there are municipal institutions, but almost exclusively controlled by the large powers of the imperial authorities.

---

## Russian Dependencies, viz.:

Finland, grand duchy; population, 2,500,000; area, 144,255 square miles.

*Executive Power.*—Governor-general, appointed by and instructed by the secretary of state and four mem-

bers of a council for the affairs of Finland; a senate aids the government in administrative affairs.

*Legislative Power and Local Government.*—A national parliament composed of four members, representing the nobles, clergy, burghers and peasants, severally called together by the emperor every four or five years. Laws are prepared by the council at St. Petersburg, and discussed by the parliament. The emperor has a veto.

---

Bokhara, under control of Russia; population, 2,600,000; area, 92,000 square miles.

*Executive Power.*—Ameer, ruling by hereditary right. A Russian resident watches over Russian interests.

---

Khiva, under control of Russia; population, 750,000; area, 22,340 square miles.

*Executive Power.*—Khan, ruling by hereditary right.

---

**Salvador**, republic; estimated population, 660,000; area, 7,225 square miles.

Executive Power.—President, elected for four years by universal suffrage and aided by a ministry.

Legislative Power and Local Government.—Single chamber, or national congress of 70 deputies, elected for one year by universal suffrage.

---

**Samoa Islands**, independent; population, 35,000; area, 11,701 square miles.

Executive Power.—Chief, elected by the natives. Germany, Great Britain and the United States have guaranteed the independence of the islands. Justice is administered in the interests of Europeans by a supreme court. Apia has a form of local government and is the capital.

---

**Santo Domingo** (part of Hayti), republic; population, 615,000; area, 18,045 square miles.

Executive Power.—President, elected for four years by universal suffrage and aided by a ministry. The provinces and districts are administered by governors appointed by the president.

Legislative Power and Local Government.—National congress of 22 members, elected for two years on a limited franchise. In the communes there are councils elected by the ratepayers, for municipal purposes.

---

**Servia**, constitutional monarchy; population, 2,600,000; area, 19,100 square miles.

Executive Power.—Hereditary prince, now a king, aided by a responsible ministry.

Legislative Power and Local Government.—National assembly (narodna skupshtina) of two houses; a senate of eight members, four appointed by the king, and four elected by the assembly, which is composed of deputies elected for three years indirectly by the taxpayers. A certain number of deputies must be university men. Deputies are paid. The constitution is in process of radical changes. The kingdom is divided into counties, districts and municipalities, which have representative assemblies for administrative purposes.

---

**Siam** (Thai) and dependencies of Kedah, Patani, Kelantan, etc.; absolute monarchy; estimated population, 5,000,000; area, 300,000 square miles.

Executive Power.—Hereditary king, aided by a council (senabodi) from which the king has formed a cabinet.

Legislative Power and Local Government.—All legislative power is in king and council. The kingdom is divided into provinces or districts administered by governors appointed by the king.

---

**Soudan** (Egyptian), or Darfur, Kordofan, Nubia (upper and lower), Tenha, and region about Strait of Bab-el-Mandeb; population about 12,000,000; area, 1,000,000 square miles.

Executive Power.—These countries are now in a transition stage, and under the influence of the English or Italians, or included within Egypt. It is impossible to give here an exact account of its government.

---

**Spain**, constitutional kingdom; population in 1887, 17,563,632; area, 197,670 square miles.

Executive Power.—Hereditary king, with powers limited by the constitution of 1876, aided by responsible ministers, nine in number.

Legislative Power and Local Government.—Parliament (cortes) of two houses; a senate composed of three classes (1) 80 senators by their own right, princes, grandees, captains-general, archbishops, admirals, judges of the courts, patriarchs of the Indies, presidents of the council of state; (2) 100 life senators appointed by the crown; (3) 180 elected for five years by the communal and provincial states, clergy, universities, academies and largest taxpayers, one-half of the number being renewed every five years; a congress of 431 members elected on a very liberal franchise based on land, income, educational, professional and public services. The principle of the representation of minorities is observed in large constituencies. The cortes meet annually and the congress is elected for five years. The king has the power of summoning or dissolving the congress and the elected part of the senate. The senate is a court of impeachment when charges are laid against ministers by the congress. In the provinces and communes of Spain there is a representative system of local government.

## Spanish Colonies and Dependencies—

In America (until August, 1898):

Cuba; population, 1,631,687; area, 41,655 sq. miles.

Porto Rico; population, 806,708; area, 3,550 square miles.

Spain allowed a representative to Cuba and Porto Rico in the Cortes, but these old colonial possessions have now passed out of her control. Cuba was in a state of revolution for years, and Spain in vain attempted to cope with her rebellious subjects. The condition of things in the island at last became so disgraceful that the United States intervened, and at this time of writing the war with Spain has ended and Cuba is to be freed from Spanish domination, though her future government has not yet been settled. Porto Rico is to be ceded to the United States.

In Asia:

Philippine Islands; population, 7,000,000; area, 114,326 square miles. Sulu Island; population, 75,000; Caroline Island and Palaos; population, 36,000; Marianne Islands; population, 10,172; total area, 116,256 square miles.

*Executive Power.*—Governor-general and a captain-general. The provinces are under lieutenant-governor, Alcaldes or commandants.

During the war with Spain, the United States obtained possession of Manilla, the capital of the Philippine Islands, and will probably, by the terms of peace yet to be settled, continue to hold that place and the Island of Luzon, where it is situated.

---

In Africa:

Adrar and Rio de Oro; population, 100,000. Ifni; population, 6,000. Fernudo Po, etc., Annabon, Corisco, Elobey, San Juan; population, 32,000; total area in Africa, 243,880 square miles.

*Executive Power.*—Subordinate to the government of the Canary Islands.

---

**Sweden and Norway**; federal or constitutional monarchical government. Sweden; population, 4,824,150; area, 172,876 square miles. Norway; population, 2,100,000; area, 124,445 square miles.

Executive Power.—The united kingdoms are under the king of Sweden, now a hereditary sovereign, though each kingdom maintains its separate government and laws. The diets of the two countries are to choose a successor to the throne in case of a failure of regular succession; and should they not agree on a suitable person, the choice is made by Swedish and Norwegian deputies. The common affairs of the united kingdoms are considered by the king, with the assistance of a council of state, composed of Swedish and Norwegian ministers.

Legislative Power and Local Government.—1. In Sweden there is a council of state of 10 members; a diet or parliament of two houses; an upper or first house of 150 members elected by provinces and town corporations for nine years; a lower or second chamber of 230 members, elected by residents of rural districts and towns for three years on a franchise based on property and income. Members of the second chamber are alone paid. The ballot is in use.

2. In Norway there is a council of state to advise the king, and a storthing, or great court, of 118 members elected for three years on a franchise based on property

and income, or public service. The system of election is indirect. The people elect certain deputies every three years, these latter assemble and choose the representatives to the storthing. The storthing, when elected and assembled for business, is divided into two houses, the "lagthing," or one-fourth of the storthing, and the "odelsthing" or remaining members of the storthing. The odelsthing has the whole right to inspect and consider public accounts. All new laws are initiated in the lower house, and are accepted or rejected by the lagthing. If the two houses do not agree, they assemble in joint session, and a majority of two-thirds decide. Members are paid.

3. A system of local government exists in both Norway and Sweden, and the representative principle prevails to a modified extent.

---

**Turkey**, absolute monarchy; population, about 40,000,000; area, 461,662 square miles (including Samos, Egypt and other dependencies). Turkey in Europe has a population of 4,780,000, and an area of 61,200 square miles.

EXECUTIVE POWER.—Hereditary sultan, whose executive and legislative authority is only limited by the precepts of Mahomet. The sultan is aided by a sadr-azam (grand-vizier), and a sheik-ul-islam, who are respectively at the head of temporal and spiritual affairs under the direction of the sultan.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—The people have no legislative or popular assemblies or councils. The whole country is divided into governments, appointed by and subject to the decrees of the sultan.

---

**Switzerland**, federal republic; population, 300,000; area, 15,976 square miles.

EXECUTIVE POWER.—The supreme executive and legislative power is in a parliament called, when united in joint session, the bundes-versammlung or federal assembly, composed of two houses, a ständerath or state council of 44 members, or two chosen and paid by each canton; a nationalräth or national council of 147 representatives elected by direct vote every three years and paid out of the federal funds. The federal assembly elects president and vice-president one year and a bundesrath or federal council for three years. Members of the council can sit and debate but not vote in the two chambers.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—The principles of initiating measures by popular vote (the initiative), and of submitting acts to direct vote (the "referendum") are in force in this republic. The legislative powers of the nation are set forth in the constitution. Each of the cantons has a system of local government based on the fullest possible expression of the popular will. Legislative assemblies and executive councils exist, and in a few cantons there are landsgemeinden or assemblies of the male citizens for the purpose of making laws and appointing their administrators. The "initiative" and "referendum" also exist to a considerable extent. The cantons or states are sovereign and only limited by the constitution.

---

**Transvaal**, or South African republic; population, 120,000; area, 119,139 square miles. Swaziland; population, 62,000; area, 16,150 square miles.

EXECUTIVE POWER.—President, elected for five years by "first-class burghers" or residents before May 29, 1876, aided by a council, appointed and elected. England has a restricted suzerainty over this republic, and is represented by a diplomatic agent. The king of Swaziland is now subject to Transvaal rule.

LEGISLATIVE POWER AND LOCAL GOVERNMENT.—Parliament of two houses of 24 members each, chosen for four years by classes of burghers. Bills must be passed by both chambers.

---

BULGARIA, principality, under the suzerainty of Turkey; population, 3,309,816; area, 37,860 square miles. This state includes eastern Roumelia.

*Executive Power.*—The present prince was elected in 1887 by the national assembly, but the title is hereditary. The prince is aided by a council of eight ministers.

*Legislative Power and Local Government.*—Single house, called the national assembly, elected by manhood suffrage for five years. Members are paid.

---

SAMOS, ISLAND OF, principality and dependency of Turkey; population, about 50,000; area, 232 square miles.

*Executive Power.*—Vizier or mushir of Turkey, appointed by the sultan, and aided by a council of four Greeks.

EGYPT, under the nominal suzerainty of the sultan; population, 6,817,265; area, 400,000 square miles.

*Executive Power.*—A hereditary khedive, aided by a council of six ministers. He has also the benefit of the advice of an English financial adviser appointed by himself, and whose consent is necessary to every decision on financial matters. He can sit on the council though not a member of the executive. English influence prevails in administration.

*Legislative Power and Local Government.*—The khedive has promulgated a constitution intended to give the people a share in legislation, but so far it is practically nugatory. Egypt is divided into governorships of towns and provinces with extensive powers, but all under the control of the khedive and executive.

---

**United States of America**, federal republic; population in 1890, 62,830,621, including Alaska; area, 3,501,000 square miles.

EXECUTIVE POWER.—President, elected for four years under the constitution by electoral colleges in each state equal to the whole number of its senators and representatives in congress; but practically the election is by the direct vote of the people. Each political party nominates a set of electors on a presidental ticket and the people vote directly for them. Under the constitution the electors meet in each state on a particular day and invariably cast their votes in accordance with the result of the election. There is also a vice-president elected by the same political method. The president is head of the executive, and has a veto over the legislation of congress, but it can be over-ridden by a two-thirds majority in each house. He is aided by a cabinet of eight secretaries of state and heads of departments, appointed by himself with the approval of the senate, but having no seats in or responsibility to congress. In case of death, resignation or disability of the president, the vice-president succeeds, and after the latter, the secretary of state or other members of cabinet in order of seniority until a new president is appointed or the disability is removed. Elections for president and vice-president take place on the Tuesday following the first Monday in November every leap year, and they take office on the 4th March following.

LEGISLATIVE POWER AND LOCAL GOVERNMENT. — Congress of two houses; a senate of 90 members, or two from each state, chosen by the legislatures for six years; a house of 357 representatives elected every second year by the electors of the states in accordance with their respective election laws; universal suffrage limited in a few cases by residence, educational tests, registration and payment of taxes. Senators must be 30 years of age, citizens for nine years, and residents of the states which elect them. Representatives must be about 25 years of age, citizens for seven years, and residents of the states in which they are elected. The senate has the power of approving or rejecting the higher appointments and treaties made by the president, and of acting as a court of impeachment for the president, judges of the supreme court, and other high functionaries. It can also amend bills for raising revenue, which alone can originate in the house of representatives. The vice-president is *ex officio* president of the senate, which may also appoint a temporary president. The speaker of the house is elected by its members. Members of both houses receive $5,000 and travelling expenses every year. The territories are represented by one elected delegate in each case, who cannot vote in the house. The legislative powers of the congress are enumerated in the constitution. The supreme court of the United States can hear and determine issues of laws as to the interpretation of the constitution and may declare the acts of congress unconstitutional or *intra vires*, as the case may be. The federal judges are appointed by the president with the approval of the senate. A permanent civil service is being gradually built up, and removals from office in the case of officials, not political in their nature, are very much less frequent of late years with the extension of civil service rules to all departments.

Wyoming; pop., 60,705; area, 97,575 sq. m.

*Executive Power.*—In each state there is a governor and a lieutenant-governor and officers to administer the government. The governor and lieutenant-governor are elected by the people for four years in following states: California, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Montana, Nevada, North Carolina, Oregon, Pennsylvania, Virginia, Washington, West Virginia, and Wyoming. In the following states the term is three years: New Jersey and New York. In the following, two years: Alabama, Arkansas, Colorado, Idaho, Iowa, Kansas, Michigan, Minnesota, Nebraska, New Hampshire, North Dakota, Ohio, South Carolina, South Dakota, Tennessee, Texas, Vermont, Wisconsin. In the following, the term is one year: Connecticut, Maine, Massachusetts and Rhode Island. All the governors have the power of veto over legislation except in Delaware, North Carolina, Ohio, Rhode Island. It requires a majority or two-thirds vote to over-ride the veto. The governor is the head of the executive and has no responsible ministers in the English or Canadian sense, but the executive or administrative officers are generally elected.

*Legislative Power and Local Government.*—In all the forty-five states there is a legislature of two houses; an upper house, generally called senate, and a house of representatives, both elected by the people of the state. In the following states the senate is elected for four years, the house of representatives for two years, and sessions are biennial, with the exception of the states mentioned: Alabama, Arkansas, California, Colorado, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Mississippi (annual), Missouri, Montana, Nevada, North Dakota, Oregon, Pennsylvania, South Carolina (annual), Texas, Utah, Virginia, Washington, West Virginia and Wyoming. In the following states the term is for the senate two, for the house, two, and sessions biennial: Idaho, Michigan, Nebraska, New Hampshire, North Carolina, Ohio, South Dakota, Tennessee, Vermont. In the following states the term is one for both senate and house, and sessions annual: Connecticut, Maine, Massachusetts, Rhode Island. In Minnesota the term of the senate is two years, of the house one, and sessions annual. In New York the senate two, the house one, and the sessions annual. In New Jersey the senate three, the house one, and the sessions annual. Universal suffrage is the rule, though Delaware has a tax qualification in state senate elections. In some states the payment of a poll tax, illiteracy and residence enter into qualifications. In Colorado, Utah and Wyoming women can vote. Members of the legislature are paid. All public officials, state and municipal, are elected as a rule, but the tendency in the older states is to have a permanent public service apart from political heads. In 31 states the judges are elected by the people; in five, by the legislature; in eight, appointed by the governor, subject to conformation by the legislature or council. The Australian or Canadian ballot is now in force in 40 states; nine have passed stringent laws against corrupt practices at elections, but they are practically effective in only two or three states.

Throughout the union there is a very complete system of township, county, and city government. Township local government prevails in the New England states, the county is generally the unit in the south; in the middle and north-western states there is a mixed system. In several of the western states women can vote and be elected for municipal and school bodies. In all cases councils are elective. In the large cities there have been cases of gross corruption and mismanagement, and the best methods of improving municipal government are now attracting much serious attention.

## United States Territories.

Alaska; pop., 32,052; area, 531,000 sq. m.
Arizona; pop., 207,495; area, 112,920 sq. m.
New Mexico; pop., 153,593; area, 122,460.
Oklahoma; pop., 61,834; area, 38,830.
Indian Territory; pop., 180,182; area, 31,000.

*Executive Power.*—In the territories the governors and other officials, including judges, are appointed for four years by the president of the United States. The legislatures (council and house of representatives) of the organized territories of Arizona, New Mexico, Oklahoma, are elected for two years, but their powers of legislation are large, though subject to federal restrictions. In the other territories there are only governors and officials appointed by the president.

As a result of the war with Spain, the United States have obtained Porto Rico, and will also occupy one or more of the Philippine Islands. Hawaii has also been annexed. The future government of these territorial acquisitions, as well as of Cuba (now freed from Spain), has yet to be settled.

# MILITIA AND DEFENCE OF CANADA

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present only maintain a garrison at Halifax, and a naval establishment there and on the Pacific coast.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Queen, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, but is practically embodied in the present Militia Act, 49 Vic., chap. 41 (Revised Statutes, 1886). By it the militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:—

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children.

The third class comprises those between 18 and 45, being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Judges, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The number of men to be trained and drilled annually is limited to forty thousand, except as specially authorized, and the period of drill is to be sixteen days and not less than eight days each year

The Militia is divided into Active and Reserve land and marine force. The Active land and marine force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service is three years.

The following is an analysis of the Units which compose the Permanent and Active Militia of Canada, by arms of the service:—

PERMANENT FORCE.

Royal Canadian Dragoons—"A" Squadron, Toronto; "B" Squadron, Winnipeg.

*For List of Officials of Post Office Department, see page 114.*

## Letter Rates, &c.

*Canada.*—Letters posted in Canada, addressed to any place within the Dominion, 3 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. It partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office, provided that the office is not one at which free delivery by letter carriers is established, are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. Letters of this nature mailed at and for delivery from an office at which there is a free delivery by letter carriers are liable to 2 cents per ounce. All postage must be prepaid by Postage Stamps.

*Post Cards.*—From any place in Canada to any place in Canada or to the United States, 1 cent each. British and Foreign, 2 cents each.

*Private Post Cards.*—Upon all cards intended for use as Private Post Cards the words "Private Post Card" must be distinctly printed or written. The face of the card may be used for advertisements, illustrations, etc., provided that a clear space of at least ¼ inch is left along each of the four sides of the postage stamp, and a clear space 3½ inches long and 1½ inches wide reserved for the address at the lower right hand corner of the card. Private Post Cards must not exceed a size of 6 inches in length by 3⅝ inches in width, these being the dimensions of the larger official Post Card at one time issued by the Department. Cards exceeding these limits are to be treated as insufficiently paid letters.

*United Kingdom, Newfoundland, British India,* and the following African Protectorates: *British East Africa, Uganda, Zanzibar, British Central Africa,* the *Niger Coast Protectorate* and the *Niger Company's Territory.*—Postage on Letters, 2 cents per half oz.

*Foreign Countries, except United States.*—Postage on Letters, 5 cents per half oz. If sent unpaid, double postage will be charged.

*United States.*—The rate on letters to the United States is the same as in Canada, and at least one rate must be prepaid.

It is very important to bear in mind that the postage upon letters for the United Kingdom and all Foreign Countries is calculated by the *half ounce* and *double* postage is charged on all unpaid letters.

## Registration of Letters.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage, is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

## Book Post, &c.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs. (unless consisting of a single book, in which case a weight of 7 lbs. is allowed); for foreign post, 4 lbs. Limit of size, two feet in length, or one foot in width or depth.

Book Packets must be open at *both ends or both sides,* and must not contain any letter or sealed inclosure.

Books for the use of the blind shall be free of Canada postage, under such regulations as are from time to time made in that respect by the Postmaster General.

The rate on Book Packets between any two places in Canada is 1 cent per 4 oz., which must be prepaid by stamps.

The rate to Great Britain, the United States and all Postal Union Countries, is 1 cent per 2 ozs.

## Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations of the British Post Office do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom by Book Post:—

1. On all pamphlets, occasional publications, printed circulars, catalogues (in which may be included printed order lists), prices current, hand-bills, and other matter wholly in print, and on packages of seeds, cuttings, but *not cut flowers,* bulbs, roots, bedding plants, scions or grafts, the rate is 1 cent for each 4 ozs. or fraction thereof.

2. On maps, prints, drawings, engravings, lithographs, photographs when not on glass or in cases containing glass, circulars produced by a multiplying process easy to recognize, botanical, natural history and entomological specimens when properly put up so as to prevent injury to the contents of the mails, visiting cards, whether printed, engraved or written, sheet music, whether printed or written, stitched or bound, book or newspaper manu-

script whether type-written or hand-written, printer's proof sheets whether corrected or not, such partly printed and partly written documents as deeds of land, wills, mortgages made under seal (including chattel mortgages), insurance policies, renewal receipts when attached to the policies, insurance receipts sent in bulk from head offices to agents, militia and school returns, customs manifests, voters' lists when written or partly in writing, school or college examination papers, municipal assessment rolls, partly printed and partly written, Dominion and Provincial Government documents, statute labour returns, municipal returns in general, blank books, photograph albums with or without photographs, printed forms entirely without writing, official post cards either wholly blank or printed as circulars or as forms to be filled up, but without any writing whatsoever, and printed stationery, the rate of postage is 1 cent for each 2 ounces or fraction of 2 ounces; and the postage rate must in every case be prepaid by postage stamps or stamped post bands or wrappers. No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision; (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

No packet of miscellaneous matter can be transmitted by mail if it exceeds 5 lbs. in weight, 24 inches in length or 12 inches in width or depth.

Legal and commercial papers generally (including Bank Pass-Books) are liable to *letter rate* of postage, except when sent as parcels by Parcel Post, and the exceptions above given to matter of that class are restricted to the documents specified, such as Deeds and Insurance Policies.

Printed or written *requests for return* will now be recognized on 3rd, 4th and 5th class matter, addressed to places within the Dominion, as well as on letters, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon in connection with any deficiency in the original prepayment.

## Newspapers and Periodicals.

The general postage rate on newspapers and periodicals *published in Canada* not less frequently than once a month, and addressed to regular subscribers in Canada, the United States and Newfoundland, and to newsdealers in Canada, is fixed by law at ¼ cent per pound from the 1st January to the 30th June, 1899, and at ½ cent per pound from the latter date onwards. The following exception, however, is to be noted: Newspapers and periodicals published not *more* frequently than once a week and not less frequently than once a month, are entitled to pass free to regular subscribers and newsdealers in Canada within a circular area of 40 miles in diameter, having as centre either the place of publication or any established Post Office not more than 20 miles distant therefrom, the choice of a centre within these limits resting with the publisher; and such news papers and periodicals are to be put up into packages and delivered into the Post Office, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, for delivery in the Dominion, other than those addressed to regular subscribers or news agents, from office of publication, the rate will be *one cent per 4 oz.*, to be invariably prepaid by Postage Stamp.

Newspapers and periodicals weighing not more than 1 oz. each may be posted singly, if prepaid by Postage Stamp ½ cent each.

The postage on specimen newspapers, and on papers and periodicals published less frequently than once a month is one cent per lb.

British and foreign publications received by mail may be re-posted in Canada to subscribers in Canada at the rate of 1 cent per lb.

## Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canada newspapers sent from the office of publication, and British and foreign newspapers posted by news agents for regular subscribers* in Canada. When addressed to any place within the Dominion, or the United States, they must be prepaid the following rates by Postage Stamp:—

If posted singly and weighing not more than 1 oz., half a cent each.

If weighing over 1 oz., one cent per four oz. or fraction of four oz.

On transient newspapers addressed to the United Kingdom, and all other Postal Union countries, the rate will be one cent per 2 oz.—to be prepaid by Postage Stamp. Canada newspapers *posted from the office of publication* to subscribers in the United Kingdom—sent in the Mails forwarded by Canadian Packet or *via* New York must be prepaid by Postage Stamp at the transient paper rate of one cent per 2 oz. The English Post Office requires *each newspaper or periodical* to each address to be prepaid by postage stamp. If sent in packages the English Post Office declines to deliver them.

## Patterns and Samples within the Dominion.

Patterns and Samples of Merchandise and Goods for sale, not exceeding 24 oz. in weight, except samples of tea, which must not exceed 8 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent per 4 oz., under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided the deficiency does not exceed 5 cents.

Packages of Samples and Patterns, addressed to any place in Canada, may be registered by affixing thereto

stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Patterns or Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade patterns or samples, are not admissible.

Liquids, oils, etc., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

## United Kingdom, United States and Foreign Countries.

Patterns and Samples of Merchandise, when addressed to places in the United Kingdom must not exceed 5 lbs. in weight; to Austria-Hungary, Belgium, Egypt, France, Italy, Portugal, Roumania and Switzerland, 12 oz.; and to the United States and other foreign countries, 8 oz.; and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Samples of liquids, oils, etc., cannot be sent to or *via* the United Kingdom, but may be sent to or *via* France, in the direct mails for that country.

## Useful Hints.

Register all valuable letters. Transmit money by Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County* and *Province* in which the office addressed is located. Place stamp on the right hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp*. When stamps are moistened the gum is apt to be removed.

## Parcel Post.

The charges on Parcels by the Parcel Post to places within the Dominion, is 6 cents for every 4 oz. or fraction thereof (with 5 cents additional if Registered). No letter must be inclosed; if any discovered, the amount paid will be forfeited, and the Parcel charged at unpaid Letter rates. No Parcel must exceed 5 lbs. in weight, and must be prepaid by stamps.

Eye-glasses and spectacles may be sent by mail when properly put up and prepaid by Parcel Post or as fifth class matter.

## Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following regulations:—

1. The dimensions of a Parcel must not exceed 2 feet in length by 1 foot in width or depth.

2. A Parcel must not contain any explosive, combustible, or dangerous articles, nor any article of a perishable or fragile character, nor liquids or matters likely to injure other Parcels or mail transmissions.

3. All Parcels must be securely and substantially packed and closed.

4. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the Parcel is intended.

5. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel, also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the Parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Custom duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed.*

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Prepayment by postage stamp is required in all cases. Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

## Fifth Class Matter.

Postage rate one cent per ounce or fraction of an ounce, to be prepaid by postage stamp. Miscellaneous articles of merchandise, including seeds, bulbs, etc., to United States, and generally all matter permitted to pass by mail in Canada, which is not of the nature of a letter, and therefore subject to letter rate of postage, and not entitled to be posted at a lower rate than 5th class under one or the other classes, may pass as 5th class when addressed to any destination within the Dominion or United States. Fifth class matter must be so packed or put up as to be open to examination of contents and must not exceed 5 pounds in weight, nor 2 feet in length by 1 foot in width or depth. When passing between Canada and the United States it will be subject to Customs regulations if liable to duty. The registration charge on 5th class matter is 5 cents in addition to postage.

A packet of fifth class matter may contain invoices and accounts, provided they relate exclusively to the con-

tents of such packet; it is also permitted to enclose a card or slip of paper giving in a brief manner necessary directions for the identification or treatment of the article or articles contained in the packet. Care must be taken not to abuse this privilege by converting such notes or marks, designed solely for the facilitation of business between the sender and the addressee, into what might properly be called correspondence. A packet of fifth class matter containing a letter or any writing intended to serve the purpose of a letter in the ordinary sense will become liable to letter postage, and the sender will incur the penalty provided by law.

When several separate articles are enclosed in a packet of fifth class matter, there is no objection to each bearing a distinguishing number, so as to enable the sender to give directions by letter (sent of course separately and duly prepaid) respecting the several articles which the packet contains.

### Prohibited Articles.

All explosive, dangerous or destructive substances, glass bottles or glass in any form liable to break, and all matter subject to speedy decay, all obscene or immoral books, publications, pictures, etc., libellous post cards and letters the covers of which bear words of an offensive character, and letters and circulars relating to illegal lotteries or other fraudulent schemes.

### Foreign Post—Commercial Papers.

"Commercial Papers" are understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal and whether written or printed on stamped or unstamped paper, way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, the rate is one cent per two ounces, but must have a minimum prepayment of five cents; this prepayment will cover a weight of ten ounces. No packet must exceed two feet in length or one foot in width or depth, or weigh more than four pounds.

## THE ONTARIO SUCCESSION DUTY ACT.

The Succession Duty Act, Revised Statutes of Ontario, 1897, Chapter 24, applies to the estates of persons dying on or after 1st July, 1892, and applies to real and personal property of every description except:

(1) Where the value of the estate after payment of all debts and expenses of administration does not exceed $10,000.

(2) To property given for religious, charitable or educational purposes.

(3) Property passing to or for the use of father, mother, husband, wife, child, grandchild, daughter-in-law or son-in-law of the deceased where the aggregate value of the property of the deceased does not exceed $100,000.

The Act applies:

*(a)* To all property passing either by Will or intestacy within Ontario, whether the deceased was domiciled in Ontario at the time of his death or elsewhere.

*(b)* To all said property which shall be voluntarily transferred by deed, sale or gift made in contemplation of the death of the grantor or intended to take effect after such death to any person in trust or otherwise.

*(c)* To any property taken as a *donatio mortis causa* made by any person dying on or after 7th April, 1896, or taken under the disposition made by any person so dying purporting to operate as an immediate gift whether by way of transfer, delivery, declaration of trust or otherwise which shall not have been *bona fide* made twelve months before the death of the deceased.

*(d)* To any property which the person dying on or after 7th April, 1896, having been absolutely entitled thereto has caused to be transferred or vested in himself and any other person jointly so that the beneficial interest therein, or in some part thereof, passes or accrues by survivorship on his death to such other person.

*(e)* To property passing under settlement, as to which see the Act.

*(f)* To the beneficial interest arising by survivorship or otherwise (if any) from Annuities.

Where the aggregate value of the property of deceased exceeds $100,000 and passes in whole or in part to or for the benefit of the father, mother, husband, wife, child, grandchild or other lineal descendant or daughter-in-law or son-in-law of the deceased, the same shall be subject to a duty of $2.50 for every $100 of the value.

Where the aggregate value of said property exceeds $200,000 the whole shall be subject to a duty of $5 for every $100.

Where the value of the property of the deceased exceeds $10,000, so much thereof as passes to or for the benefit of the grandfather or grandmother, or any other lineal ancestor of the deceased except the father and mother, or to any brother or sister of the deceased, or to any descendants of such brother or sister, or to a brother or sister of the father or mother of the deceased, or of any descendant of such last mentioned brother or sister, shall be subject to a duty of $5 for every $100.

Where the value of said property exceeds $10,000 and any part thereof passes to or for the benefit of any person in any other degree of collateral consanguinity to the deceased than is above described, or to or for the benefit of any stranger in blood to the deceased save as hereinbefore provided for, same shall be subject to a duty of $10 for every $100 of the value.

Provided that where the whole value of any said property does not exceed $200 the same shall be exempt from duty.

Any property brought into Ontario for administration or distribution shall be liable to the duty.

Executors or administrators are directed to make and file with the Surrogate Registrar a statement under oath showing *(a)* itemized inventory of all the property of the deceased and the market value thereof, and *(b)* the several persons to whom the same will pass under the Will or intestacy and their degree of relationship (if any); and the executor shall before the issue of Letters Probate or of Administration deliver to the Surrogate Registrar a bond with two sureties in a penal sum equal to ten per cent. of the sworn value of the property of the deceased liable to succession duty.

Should the Treasurer of the Province be not satisfied with the value so sworn to or with the correctness of the inventory, provision is made for a valuation and appraisement of the said property by the Sheriff of the County in which same is situate, with the right of appeal by either party from such appraisement to the Surrogate Judge of the County.

# POST OFFICE MONEY ORDERS.

In sending money by mail it is always best to transmit by Money Order if possible.

*Commissions on Money Orders.*

On Money Orders drawn by any Money Order Office in Canada on any other Money Order Office in the Dominion, the Commission is as follows:—

| | | | | |
|---|---|---|---|---|
| | $2.50 and under | | | 3 cents. |
| Over | 2.50 | and up to | $ 5 | 4 " |

There being a direct exchange of Money Orders between the Dominion of Canada and the countries and British Colonies distinguished by an asterisk (*), Orders drawn upon these countries and colonies are paid in the full amount for which drawn. Orders upon other countries and colonies, not so distinguished, are, however, subject to a small abatement on payment.

Money Orders on the above countries are drawn in Canada Currency. Tables showing the sums payable in other countries where the money is of a different denomination, on Orders issued in Canada, will be found below.

POSTAL NOTES.

Postal Notes have been placed in the hands of all Money Order Post Offices in Canada. They offer a convenient and safe means of transmitting small sums through the mails, and their use is likely to be widespread as soon as the public become acquainted with the system. Their use is confined to Canada.

There are sixteen denominations of Postal Notes; the different amounts and the commission payable thereon are as follows:

| *Denom.* | *Commis.* | *Denom.* | *Commis.* |
|---|---|---|---|
| $0 20 | 1 cent. | $0 90 | 2 cents. |
| 0 25 | 1 cent. | 1 00 | 2 cents. |
| 0 30 | 1 cent. | 1 50 | 2 cents. |
| 0 40 | 1 cent. | 2 00 | 2 cents. |
| 0 50 | 2 cents. | 2 50 | 2 cents. |

| 0 70 | 2 cents. | 4 00 | 3 cents. |
| 0 80 | 2 cents. | 5 00 | 3 cents. |

Odd cents may be made up by affixing Canadian postage stamps, not exceeding nine cents in value, to the face of a Postal Note. For instance, 75 cents may be remitted by means of a Note for 70 cents and 5 cents in stamps—75 cents will be paid on presentation of the Note.

# POST OFFICES AND RAILROAD STATIONS

## IN THE DOMINION OF CANADA.

*The Offices printed in Italics are authorized to grant and pay Money Orders. The Offices marked * are Savings Bank Offices. Capital letters on right of the Electoral District column indicate the several Provinces of the Dominion, thus:—O, Ontario; Q, Quebec; N S, Nova Scotia; N B, New Brunswick; P E I, Prince Edward Island; M, Manitoba; B C, British Columbia; Alta, Alberta; Assa, Assiniboia; Atha, Athabasca; Sask, Saskatchewan.*

**The numbers and names placed opposite every place indicate the Railroad or Steamship line on which the place or nearest railway station is situated. See list of Railroads and Steamboats on pages 151 to 154.**

The thanks of the publishers are due to E. W. Bullinger, Esq., for his kind permission to use "Bullinger's Postal and Shipper's Guide for the United States and Canada" in the preparation of the following list :—

## THE LAKE ST. JOHN TERRITORY.

The territory in question extends from the head of navigation of the river Saguenay, at Chicoutimi, to the northern boundary of the Province of Quebec, a distance of 220 miles, and from the sources of the waters flowing into Lake St. John, from the East, to the river St. Maurice, and embracing the valley of the river Batiscan, a distance of 200 miles, the whole forming an area of 44,000 square miles or about 28,000,000 acres. Comparatively little is known of this great country, with the exception of the valley of Lake St. John, which, within the last few years, has been colonized with great rapidity, and now contains a population of some 40,000.

The Saguenay and St. Maurice regions are already the field of large lumbering operations, estimated at 60,000,000 feet, B.M., per annum, or equivalent to nearly one-fourth of the whole export of sawn lumber from the port of Quebec. The country is thus described by a gentleman who visited it recently:

**The Soil** "Is almost universally composed of a rich grey clay, the land seems to be inexhaustible. At Pointe-aux-Trembles I was shown a field of wheat, which had been producing that grain for the last fifteen years, without the application of any manure; and the grain I saw this year was as fine as any to be found in this district. Truly one is struck with wonder at the richness of the soil, for I believe there is none richer in Canada."

**The climate of the Lake St. John region** is said to be that of Montreal; there is no doubt of its being superior to that of Quebec. The snowfall is certainly less. In fact, farmers complain that they do not get good sleigh roads till late in the winter. On the 25th September this year I remarked that the leaves of the trees were very little tinted, and potato stems were still green. Wheat and all grains ripen and produce abundantly, as may be seen from the following extracts taken from the census returns:

| | 1861. | 1871. | 1881. | | 1861. | 1871. | 1881. |
|---|---|---|---|---|---|---|---|
| Wheat, bushels | 10,912 | 136,099 | 154,589 | Hay, tons | 3,648 | 5,966 | 16,347 |
| Oats, " | 39,316 | 117,249 | 211,216 | Butter, pounds | 61,777 | 148,106 | 393,127 |
| Barley, " | 30,922 | 71,210 | 47,025 | Head of live stock | 18,746 | 44,772 | 59,797 |
| Other Grains | ..... | ..... | 108,183 | Tobacco, pounds | ..... | ..... | 67,437 |
| Potatoes, bushels | 101,382 | 156,996 | 287,238 | Population | 10,478 | 17,493 | 32,409 |

Potatoes, carrots and other vegetables yield abundantly and are of immense size. Wheat is of course the great test of the soil and climate of any agricultural country. Let us then compare its production at Lake St. John with the best districts of the Province, viz: The Eastern Townships, and we find that the census returns show in 1881:—

| | Population. | Bush. Wheat. | Bush. per 1000 of pop. |
|---|---|---|---|
| Chicoutimi | 32 409 | 154,589 | 4,800 |
| Compton | 19,581 | 34,181 | 1,800 |
| Stanstead | 15,556 | 37,727 | 2,400 |
| Huntingdon | 15,495 | 24,378 | 1,600 |

Comparison between the temperature, and snow-fall at Roberval and at other places in Canada, each winter season (from January to March inclusively) and each summer season (from July to September inclusively). The observations for Roberval extend from April 1888 to May 1890, inclusively; those for Moose Factory, James Bay, from the year 1877 to the year 1882. All these observations are taken exclusively from the official reports of the Meteorological Department at Toronto.

# STATISTICS OF CHURCHES.

From the census returns it is learned that there were 10,480 churches in Canada in April, 1891. This is an increase over 1881 of 1,828.

Divided among the denominations, the increase is distributed as follows: Baptists, 324; Roman Catholics, 301; Church of England, 415; Methodists, 322; Presbyterians, 411. All other denominations, 55.

Of the total number of churches, the Methodists have nearly 32 per cent, the Presbyterians and Roman Catholics 17 per cent. each, the Church of England 16 per cent., the Baptists 12 per cent., leaving 6 per cent. for "all others."

During the decade 1881-91, the Church of England appears to have been the most active in providing places of worship for the people, the Presbyterians coming next, the Baptists third, the Methodists fourth, and the Roman Catholics fifth.

Territorially considered, the Church of England has provided 337 additional churches in the provinces east of Manitoba, and 78 in Manitoba and the other western provinces. Methodists have provided 227 in the eastern and 95 in the western provinces; Presbyterians. 302 and 109 respectively; Roman Catholics, 257 and 44, and the Baptists 305 and 19 respectively.

# THE BRITISH GOVERNMENT.

THE SALISBURY MINISTRY.

The Salisbury Ministry, which came into office on June 24th, 1895, is made up as follows:—

*Prime Minister and Secretary of State for Foreign Affairs*—Marquis of Salisbury.

*Lord President of the Council*—*Duke of Devonshire.

*First Lord of the Treasury and Leader of the House of Commons*—Rt. Hon. A. J. Balfour.

*Lord Chancellor*—Earl of Halsbury.

*Secretary for India*—Lord George Hamilton.

*Chancellor of the Exchequer*—Sir Michael Hicks-Beach.

*Home Secretary*—Sir Matthew White Ridley.

*Secretary for the Colonies*—*Rt. Hon. J. Chamberlain.

*Secretary for War*—*Marquis of Lansdowne.

*Secretary for Scotland*—Lord Balfour of Burleigh.

*First Lord of the Admiralty*—*Rt. Hon. J. G. Goschen.

*President of Board of Trade*—Rt. Hon. C. T. Ritchie.

*Chancellor of the Duchy of Lancaster*—*Lord James.

*Lord Privy Seal*—Viscount Cross.

*President of the Local Government Board*—Rt. Hon. Henry Chaplin.

*Lord Lieutenant of Ireland*—Earl Cadogan.

*Lord Chancellor of Ireland*—Lord Ashbourne.

*President of the Board of Agriculture*—Rt. Hon. W. H. Long.

*First Commissioner of Works*—Rt. Hon. A. Akers-Douglas.

The foregoing form the Cabinet.

*Chief Secretary for Ireland*—Rt. Hon. Gerald Balfour.

*Postmaster-General*—Duke of Norfolk.

*Vice-President of the Council*—Rt. Hon. Sir John E. Gorst.

*Junior Lords of the Treasury*—H. T. Anstruther, W. Hayes Fisher, Lord Stanley.

*Financial Secretary to the Treasury*—Rt. Hon. R. W. Hanbury.

*Patronage Secretary to the Treasury*—Sir W. Walrond.

*Under Secretary for the Home Department*—*Rt. Hon. Jesse Collings.

*Under Secretary for Foreign Affairs*—Rt. Hon. W. St. John Brodrick.

*Under Secretary for the Colonies*—*Earl of Selborne.

*Under Secretary for India*—Earl of Onslow.

*Parliamentary Secretary to the Board of Trade*—Earl of Dudley.

*Parliamentary Secretary to the Local Government Board*—*T. W. Russell.

*Secretary to the Admiralty*—W. E. G. Macartney.

*Under Sec'y for the War Office*—Mr. George Wyndham.

*Financial Secretary to the War Office*—*Powell Williams.

*Civil Lord of the Admiralty*—*Austin Chamberlain.

*Attorney-General*—Sir R. Webster.

*Solicitor-General*—Sir C. Scott Dickson.

*Lord Advocate for Scotland*—Rt. Hon. R. C. Pearson.

*Attorney-General for Ireland*—Rt. Hon. John Atkinson.

*Solicitor-General for Ireland*—Dunbar Barton.

*Vice-Chamberlain of the Household*—Hon. Alwyn Fellowes.

*Comptroller of the Household*—Viscount Valentia.

*Lord Chamberlain*—Earl of Lathom.

Members of the Ministry whose names are marked with an asterisk are of the Liberal-Unionist party.

## THE GOVERNMENT DEPARTMENTS.

### THE TREASURY.

*Chancellor of the Exchequer*—Sir Michael Hicks-Beach.

*First Lord of the Treasury*—Right Hon. A. J. Balfour.

*Financial Secretary to the Treasury*—Right Hon. R. W. Hanbury.

*Patronage Secretary to the Treasury*—Sir William Walrond.

*Junior Lords of the Treasury*—H. T. Anstruther, W. Hayes Fisher, and Lord Stanley.

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary to the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the rejection or reduction of an estimate by the House of Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the First Lord are little more than nominal, and the office is usually held by the Leader of the House of Commons. The Patronage Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

### THE FOREIGN OFFICE.

*Secretary of State for Foreign Affairs*—Marquis of Salisbury.

*Under Secretary for Foreign Affairs*—Rt. Hon. W. St. John Brodrick.

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is invariably of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Chief Secretary, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons.

### THE COLONIAL OFFICE.

*Secretary for the Colonies*—Right Hon. J. Chamberlain.

*Under Secretary for the Colonies*—Earl of Selborne.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the Home Office. In 1794 the colonies were placed under the care of the Secretary of State for War. This arrangement was continued until 1854, when the War Department was reconstructed, and separate Secretaryships of State were established for War and for the Colonies. The colonies are divided into three classes. In the first are the Crown colonies, in which the Crown has entire control of legislation, and which are administered from the Colonial office. Hong Kong and Cyprus are examples of Crown Colonies. In the second class are the colonies with representative institutions, but not responsible government. In these the Crown has a veto on legislation and retains control of the public offices. Such colonies are Ceylon and Newfoundland. The third class includes the colonies having responsible government, such as Canada and the Australasian colonies.

THE INDIA OFFICE.

*Secretary for India*—Lord George Hamilton.
*Under Secretary for India*—Earl of Onslow.

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of Her Majesty's Principal Secretaries of State. At the same time there was established a council to assist the Secretary for India. It consists of not less than ten members nominated by the Secretary. The majority of these members must be men who have served or resided ten years in India, and have not left India more than ten years previous to the date of their appointment. Members hold office for ten years, and under the direction of the Secretary for India, conduct all the business transacted in London in relation to the government of India.

THE HOME OFFICE.

*Home Secretary*—Sir Matthew White Ridley.
*Under Secretary*—Rt. Hon. Jesse Collings.

The Home Department has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and generally speaking the Department is responsible for the internal peace of the country. Prisons, convict establishments, criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office. It is also responsible for the administration of the factory code, and the laws relating to mining. The Home Secretary is always a lawyer, and is always of the House of Commons.

THE WAR OFFICE.

*Secretary for War*—Marquis of Lansdowne.
*Under Secretary for War*—Mr. George Wyndham.
*Financial Secretary for the War Office*—Powell Williams.

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval.

THE ADMIRALTY.

*First Lord of the Admiralty*—Rt. Hon. J. G. Goschen.
*Secretary to the Admiralty*—W. E. G. Macartney.
*Civil Lord of the Admiralty*—Austin Chamberlain.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are Admirals without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are at the instance of the Foreign Office and the Colonial Office.

THE COUNCIL.

*Lord President of the Council*—Duke of Devonshire.
*Vice-President of the Council*—Sir John E. Gorst.

The principal duties of this department are now connected with education. The Committee of Council for Education or the Education Department, as it is popularly called, exercises supervision over the various departments of state aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President is always of the House of Commons, and he is practically the Minister of Education.

THE LOCAL GOVERNMENT BOARD.

*President of the Local Government Board*—Rt. Hon. Henry Chaplin.
*Parliamentary Secretary to the Local Government Board*—T. W. Russell.

This Department dates from the reform of the Poor Law in 1834. From 1834 to 1847 its chief was not of the Ministry nor in Parliament. Up to 1871 it was occupied exclusively with the administration of the Poor Law. In 1871 it took over from the Home Department numerous duties in connection with municipal government and public health, and its title was changed to the Local Government Board.

THE BOARD OF TRADE.

*President of the Board of Trade*—Rt. Hon. C. T. Ritchie.
*Parliamentary Secretary to the Board of Trade*—Earl of Dudley.

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, to bankruptcy; and it also has the oversight of all matters connected with the mercantile marine, harbours, canals, railways, and street car lines. The Labour Bureau is a department of the Board of Trade. Its work is confined to the collection and compilation of information of all kinds relating to labour. The Board of Trade also collects information relating to trade and commerce abroad.

THE POST OFFICE.

*Postmaster-General*—Duke of Norfolk.

The Post Office in England controls the telegraphs, as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

THE BOARD OF AGRICULTURE.

*Pres. of the Board of Agriculture*—Rt. Hon. W. H. Long.

The principal duties of this Department are the administration of the laws for preventing and stamping out cattle disease. It supervises the landing of live cattle imported from abroad.

OFFICE OF PUBLIC WORKS AND BUILDINGS.

*First Commissioner of Works*—Rt. Hon. A. Akers-Douglas.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Law Courts, and the public offices at Whitehall.

DEPARTMENT OF THE LORD CHAMBERLAIN.

*Lord Chamberlain*—Earl of Lathom.
*Vice-Chamberlain of the Household*—Hon. Alwyn Fellowes.
*Comptroller of the Household*—Viscount Valentia.

The Lord Chamberlain's Department has the general supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the Lord Chamberlain. His sanction is necessary for the production of a play in any theatre in England at which a charge for admission is made.

IRISH AND SCOTCH DEPARTMENTS.

*Chief Secretary for Ireland*—Rt. Hon. G. Balfour.
*Secretary for Scotland*—Lord Balfour of Burleigh.

These Departments for Ireland and Scotland respectively exercise functions very similar to those of the Home Department in England.

MINISTERIAL SALARIES.

The salaries received by the members of the Cabinet range from £2,000 to £6,000. The Lord Chancellor has also £4,000 as Speaker of the House of Lords. The political secretaryships and the under secretaryships of departments have attached to them salaries of £1,500 to £2,000 a year. Pensions are granted to such of the holders of Ministerial offices as after their retirement become too straightened in means to maintain themselves in a social position in keeping with the official rank they have held. These pensions are granted irrespective of length of official service. They range in amount from £1,000 to £1,200.

# THE BRITISH ARMY IN 1898-99.

The annual estimates for the British Army were laid before the House of Commons, on February 25th, 1898, by Mr. St. John Brodrick, the Under-Secretary for War. They provided for land forces for 1898-99 not exceeding 180,513 men, and the army votes, as a whole, called for an expenditure, in 1898-99, of £19,220,500. The number of men voted was 21,739 more than in 1897, and with the increase of 1897, made a total additional force on the establishment of over 25,000 men.

From time to time during the last 40 years, the strength of the British army has varied in accordance with the policy of the Government in power, and its ideas as to the needs of the Empire. In 1856, at the time of the Crimean War, Parliament voted 246,000 troops. The next year, when war was at an end, the vote was for only 126,000 men. In 1864, the number again mounted upwards: this time to 132,000. In 1870, however, it was reduced to as low as 113,000, the lowest number at which it has stood at any time during the last 40 years. The last vote taken by the Liberal Government of 1892-95 was for 155,403 men, an increase of only 56 over the vote of 1894. The present Government is intent on gradually increasing the land forces, as well as the navy. Its first vote, taken on March 17th, 1896, was for 156,174 men, and its last vote, that for 1898-99, as has already been stated, was for 180,513. Thus, between 1895, when the last army vote of the Rosebery Government was taken, and 1898, the standing army has been strengthened by the addition of 25,110 men.

The peculiar work for which the British Army exists, was succinctly stated by Mr. Brodrick when he introduced the estimates. "The organization of our army," he then said, "was unique, because its objects were unique. Other nations organized for home defence and for foreign invasion. Our army, with a prodigious frontier to defend, had to provide a force for possible large wars, and at any moment to carry on minor wars in every variety of climate. Beyond this, the conditions of our service were exceptional. No other nation maintained half its army abroad in time of peace. No other nation attempted to defend its own frontiers without compulsory service. No other nation drew on its population for half the number of seamen and marines now enrolled by this country, and the army was thus forced to compete in the labour market with our advanced and highly popular service, and had hitherto done so at a rate of pay exactly similar to that which the British man-at-arms received at the battle of Agincourt."

Statistical details given by Mr. Brodrick, showed that at the present time of Englishmen attaining the age of 18, one out of every four enters the navy, the army, the militia, the volunteers or the yeomanry. This, too, in spite of the fact that all these services are voluntary, and that for nearly seventy years past no ballots have been taken in Great Britain to fill up the ranks of any of the services.

The army reserve on the 1st of January, 1898, stood at 82,005. These are soldiers who have served with the colours for seven years, and who for five years after leaving their regiments hold themselves in readiness to rejoin in the event of war. Up to 1898 all the reserve men received fourpence per day ordinary pay, and twopence per day deferred pay. In 1898 this plan was to some extent departed from, and a special reserve force was created. It is to consist of not more than five thousand men, who on leaving the colours give an undertaking to rejoin the ranks to meet the drafts for small wars, such, for instance, as the frontier wars in India, and the expeditions into the Soudan under Gen. Kitchener in 1897 and 1898. These men, in return for holding themselves in readiness for these drafts, are to receive sixpence a day in addition to their ordinary reserve pay. Hitherto there have been no organizations for meeting these drafts, and the new plan for doing so is expected to free the War Department from an anxiety in this matter which it has laboured under for many years.

The army reserve men are liable to be called up annually for training for a period not exceeding 12 days or 20 drills; but in recent years the reserves have seldom been thus called out. When they are called out, they receive pay at army rates according to the rank they held when transferred to the reserve, in addition to their ordinary and deferred army reserve pay. Besides the soldiers with the colours and the reserve men, who form a total of 262,000 men, there are about 80,000 army pensioners, men who mostly earned their pensions in the old days of the long service army.

Of the total of British troops, the great bulk is infantry. There are now 28 regiments of cavalry, exclusive of three regiments of household cavalry. Of these 28 regiments, 10 are dragoons, six are lancers, and 12 are hussar regiments. Nine of these cavalry regiments are always in India. For active service the cavalry is organized in divisions. Each of the main divisions is composed of two brigades, and each brigade, in its turn, is composed of three regiments; a regiment again is divided into three squadrons, and each squadron is composed of 126 sabres. Thus a regiment at its full strength includes 378 sabres, a brigade 1,134 sabres, and a division 2,268 sabres, not including officers and staff. With each of the three British army corps there is also one cavalry regiment for divisional purposes, and one squadron for headquarter duties. At the present time the artillery force is made up of 50 batteries of field artillery. In each battery there are six guns, or 300 guns in all. There are also 10 batteries of horse artillery, with in all 60 guns, so that the artillery as a whole consists of 360 guns, not including 40 field and six horse artillery guns in reserve. Including these reserves the grand total is 406 guns.

During the next two years from 1898-99, ten more batteries are to be added to the artillery.

The increases provided for by the Parliamentary votes of 1897 and 1898 were thus distributed over the several arms of the service:—

| | 1897. | 1898. | Total Increase. |
|---|---|---|---|
| Cavalry | ..... | 684 | 684 |
| Horse and Field Artillery | 196 | 3,257 | 3,453 |
| Garrison Artillery | 3,641 | 73 | 3,714 |
| Foot Guards | 2,861 | ..... | 2,861 |
| Infantry | 185 | 12,045 | 12,230 |
| West India Regiment | 1,011 | ..... | 1,011 |
| Total | 7,894 | 16,059 | 23,953 |
| Malta Militia | 1,130 | ..... | 1,130 |
| Total | 9,024 | 16,059 | 25,083 |

In summarizing these additions and changes, Mr. Brodrick said that for home defence "we shall have enough regulars, completely equipped with artillery at the rate of five guns per 1,000 bayonets and sabres, for our three army corps. For minor emergencies we shall be able to send a force of 10,000 men without calling out the main reserve, or transferring men from one unit to another. For a large war our two army corps will be complete."

The British forces now compose what is described as a short service army. This term distinguishes it from the army of a generation ago. In the army, as it existed prior to 1873, men enlisted for 21 years, and at the end of that time were discharged with a pension. In 1873 this long service system came to an end, and in its place there was established what is now known as the short service plan. Under this men enlist for 12 years. Most of them spend seven years with their regiments, and are then passed into the army reserve for the remaining five years of their term. This passing of men from the colours to the reserve makes it necessary to recruit about 35,000 new men every year. The short service system is often the subject of much criticism; but it has always to be remembered, as Lord Wolseley, the Commander-in-Chief, told a meeting at York in 1897, that the short service system was adopted in 1873 simply because men would no longer enlist for twenty-one years.

About the time the short service system was established, what is known as the territorial system also came into being. Formerly infantry regiments were known by numbers, and generally in addition by titles which belonged characteristically to the regiments, or which commemorated some event or incident of outstanding importance in regimental history. Nowadays and since the early seventies, infantry regiments are known by the names of counties. When the re-arrangement took place regiments were assigned by name to this or that county, and their depots were then established in the neighbourhoods from which the regiments then took their names.

There are now 69 of these depots, and English, Welsh, Scotch and Irish county names are borne by the various regiments. The idea at the bottom of the territorial plan was to give regiments territorial connections, to make them locally popular, and as far as was practicable to mass soldiers hailing from the same part of the country into regiments officially connected with the counties from which the men came. To this end, since the seventies, it has been the practice to recruit regiments from the parts of the country in which their depots are situated. No matter where the main body of the regiment may be stationed, at Aldershot, at the Curragh, in India, or in Malta, its depot remains in the neighbourhood to which the regiment is titularly attached. A staff of commissioned and non-commissioned officers of the regiment is stationed at the depot. There the recruits are received; they are put through a long and hard course of preliminary training, and at the end of this course are drafted from the depot to the colours.

Recruiting officers are permanently stationed in most of the large English towns and cities, and frequently these officers go on special duty into the country villages. London is, however, the great recruiting ground of the army. During the year ending January, 1897—the last year for which official figures are available—35,015 recruits were accepted. In 1896 the number was 28,532. Among the causes which in recent years have adversely affected recruiting, the Inspector-General of Recruiting includes (1) the increased requirements of the Navy and the Royal Marines; (2) the general improvement in trade; and (3) the improved condition of the working classes, as shown by the increase in the rates of wages and the decrease in the numbers of the unemployed.

A man who offers for the army may enlist for 12 years, the whole of which period is spent with the colours, or he may enlist for part of the term with the colours and the remainder of it with the reserve. The 12 year enlistment plan applies to the regiment of household cavalry, to the corps of ordnance artificers, to the band of the Royal Military College, the corps of army schoolmasters, the corps of armourers, bandsmen in the foot guards, royal engineers who enlist for appointment as military machinists, and men enlisted for appointment as sergeant master tailors. Less than 2,000 men on an annual average enlist under this 12 year plan. All boys between 14 and 16, who are accepted to be trained as musicians, trumpeters, drummers, buglers, or tailors, must join for 12 years. The shorter service system, on the other hand, applies to cavalry of the line, royal artillery, infantry of the line, ordnance store corps, who serve seven years in the army and five in the reserve; the army service corps, who serve three years in the army and nine in the reserve; the foot guards and the medical staff corps, who serve seven years in the army and five in the reserve; royal engineers who serve seven years in the army and five in the reserve; and the post office corps and royal engineers of the telegraph and railway reserve, who serve three years in the army and three in the reserve.

The age and physical conditions governing acceptance for the various services in the army are as follows:

AGE.

| | |
|---|---|
| Limits of age for all arms of the Service (with the exceptions specified below) | 18 to 25 years. |
| Royal Engineers— | |

| Medical Staff Corps | " | 5ft. 3in. to 5ft. 5in. |
| Post Office Corps | " | 5ft. 4in. & upwards. |

CHEST MEASUREMENT AND WEIGHT.

The minimum chest measurement is fixed at 33 in., and the minimum weight at 115 lbs.; but the chest measurement and the weight of each recruit depend upon his height and the arm of the service he wishes to join, and are left to the discretion of the approving medical officers.

It is still possible under the short service plan for soldiers to re-enlist and to serve for 21 years. After this length of service has been put in, soldiers become entitled to pensions. For privates and gunners, the pension is from 8d to 1s 6d per day; for non-commissioned officers, 1s 3d to 3s 6d per day; for warrant officers, 3s to 5s per day. Soldiers discharged on account of wounds or injuries received in the performance of their military duty, are entitled to a pension varying with the extent of the disability and with the length of service.

The daily rates of pay of the several ranks in the different arms of the service are as follows:

DAILY RATES OF PAY.

A soldier who has been in the army for not more than three months may claim his discharge on payment of £10. After three months the sum is £18, and in this case the permission of the commanding officer is necessary. Discharges by purchase, however, are allowed to the fullest extent consistent with the requirements of the service, and at ordinary times a soldier finds no difficulty in purchasing his discharge.

Until 1871, commissions in the army were bought and sold. Commissioned officers nowadays are drawn from the military academies at Woolwich and Sandhurst; and admission to these schools is obtained only after stiff examinations have been passed. In the army, promotion is by seniority. The pay of a lieutenant is 5s 4d a day; of a captain, 11s 7d a day; of a major, 16s a day; and of a lieutenant-colonel, 21s a day. There are some other allowances; but the pay and allowances of officers are not sufficient to maintain them in the style which, according to the social traditions of most regiments, officers are expected to keep up. Comparatively few of them are dependent entirely on their army pay.

What are described in England as the auxiliary forces comprise the militia, the volunteers, and the yeomanry cavalry. The militia is the oldest of these services. It is older than the standing army, and until the second or third decade of the nineteenth century all men not suffering from bodily infirmities due to age or other causes, and not specially exempted, were liable to be drawn by ballot for the militia. They could serve either personally or by substitute. Ballots were taken in counties until the twenties to make up the quota of militia each county was compelled by the law of 1760 to equip and maintain. These old militia laws have never been repealed. Their operation is suspended every year by Act of Parliament, and if necessary they could at any time be put in operation again. The desirability of putting again in operation was discussed in the House of Lords early in the session of 1898, when the Marquis of Lansdowne, Secretary of State for War, assured the House that the militia laws needed very little alteration to meet modern requirements. That is hardly so. As students of constitutional and Parliamentary history are well aware, the militia ballot laws were always expensive to work, even in the eighteenth century. They had failed of their purpose long before the time when, about 1832, Acts began to be passed each year to suspend the ballots, and the failure of the laws makes it clear that it would be impracticable to work them at a time when so large a part of the population of Great Britain is concentrated in great cities. There is, however, no great lack of volunteers for the militia, and the force to-day numbers about 112,000 officers and men.

The militia is a local force, each regiment being raised in the division of the county in which the regiment has its head-quarters. It is called out each year for a period of training which cannot exceed 56 days. The men enlist for six years, and when under training their pay, their discipline, and the general conditions of their services are very similar to the conditions in the regular army. Until as late as 1871 the militia regiments in each county were nominally under the command of the lord lieutenant of the county; and nowadays, although there are examinations for officers' commissions in the militia, in issuing these commissions the War Department gives preference to local landed gentlemen who are recommended or nominated by the lords lieutenants, the Queen's representatives in the counties. In connection with the militia there is a reserve consisting of men who have accepted extra bounties to hold themselves in readiness to serve abroad if need be in the regular army. The number of these men is 31,000.

The yeomanry cavalry is a volunteer force existing in England and Scotland, composed chiefly of tenant farmers. Usually a troop of yeomanry is organized by some large landowner, who also commands the troop. Many landlords, even those who themselves are not of the yeomanry, make it a condition in their farm leases that their tenants shall be of the yeomanry. There are now 38 of these yeomanry regiments of a total strength of 10,184. In Scotland the yeomanry force numbers less than one thousand. In Ireland there is no yeomanry force, nor has Ireland any volunteers.

The volunteer force in 1898 numbered in round figures 232,300 men, less by 4,145 than in 1897. The falling off was due to the stricter physical test to which in recent years volunteers have been subjected. The number of efficients was 3,500 less than in 1897.

Members of volunteer corps are enrolled for three years, and are compelled to put in sufficient time at the drill hall, on the parade ground, and at the rifle ranges, to make themselves efficient, and to pass the annual inspection before an officer from the War Department. Non-efficient volunteers can be sued in the courts for any loss falling upon their regiment in consequence of their failure to earn the Government grant. Each man who makes himself efficient earns for his corps a Government grant of about £3 8s. This forms the Government contribution to the cost of the corps. It is not large enough to meet all expenses. It usually defrays the cost of clothing, accoutrements, ammunition, and establishment charges. The balance is made up by the officers and from local non-military friends of the corps. The officers are drawn from the ranks of the professional and commercial classes. There is no pay to the holder of a volunteer officer's commission. On the contrary, he incurs considerable expense in connection with his office, a fact which accounts for vacancies in many of the volunteer corps.

# THE BRITISH NAVY IN 1898-99.

The accompanying tables show how the British Navy stood on the 31st of March, 1898, and how it compared with the navies of France, Russia, Germany, Italy, the United States and Japan, as regards both ships built and ships in building. Enumerated in the list are all vessels for which, on the 31st of March, money had been appropriated. The list is official. It was compiled by the Intelligence Department of the British Navy, and issued as a Parliamentary paper on the 25th of May, 1898.

The extraordinary development of the British Navy during the last quarter of a century, was well told in a reminiscence to which Mr. Goschen treated the House of Commons on March 10th, 1898, when as First Lord of the Admiralty in the Salisbury Government, he introduced the Navy Estimates for 1898-99. In the Gladstone Government of 1868-74, Mr. Goschen held the same office that he now holds in the existing Unionist Government. "To show the enormous advance which has been made," he said in introducing the Estimates for 1898-99, "let me give one glimpse into the rather distant past. In 1872 I stood at this table as First Lord of the Admiralty, and I proposed Estimates of which the total was £9,500,000. To-day I ask for £23,000,000. Then I asked for 61,000 men and boys. To-day I ask for 106,000 men and boys. Then I asked for money to commission 124 fighting ships. To-day I ask for money to commission 258 fighting ships." "Let me say," continued Mr. Goschen, "how matters stood only 10 years ago. Then we had 139 fighting ships in commission, and 24,800 men. To-day we have 238 fighting ships in commission, and 50,000 men—that is to say, we have in commission ships holding twice the number of crews which they held only ten years ago."

In the foregoing statements, the First Lord of the Admiralty quoted only round figures. The exact sum the House of Commons voted for the Navy on March 10th, 1898, for 1898-99 was £23,780,000. This was irrespective of £1,775,000 voted for naval works. It was also irrespective of the sum of £5,612,000 voted in a supplementary estimate on July 22nd, under extraordinary circumstances, to be explained later on in this article.

At the time Mr. Goschen laid his statement before the House, there were in building nine battleships, twelve first-class cruisers, six second class cruisers, ten third-class cruisers, and forty-one torpedo boats. Work on most of these vessels during 1897-98 had been much delayed by the great strike of engineers in 1898. The strike extended over seven months, and during that time work in many of the ship-building yards was at a standstill. Had it not been for the strike, one battleship, three first-class cruisers, six third-class cruisers and forty-five instead of thirty torpedo boat destroyers would have been added to the Royal Navy in the year 1897-98. All these vessels will, however, have been added to the Navy by the time the CANADIAN ALMANAC for 1899 is issued from the press. When Mr. Goschen made his statement, there were in all 78 vessels in building, representing a total outlay of £23,000,000. Four more cruisers were authorized by the second or supplementary vote—that of July 22nd.

The motives actuating the Government in the adoption of its ship-building programme was also explained by Mr. Goschen. "It seems," he said, "to be considered that we act on no system in regard to the numbers of ships of different classes we construct, and that we have no strategic plans to put in force if war should break out. I do not know on what fact these views are founded except the fact that we do not talk about our schemes or about the system we adopt. Standing here as a Minister, I can assure the House that the distribution of our cruisers, for instance, has been carefully considered as regards every trade route and every route by which our food supplies arrive. There is no haphazard in regard to the number of cruisers or the class of cruisers we build. We must modify our plans occasionally as we see fresh elements enter into the situation, but there is a system, and we act on that system. Every day new features enter into strategic considerations. The balance of power varies and new fleets are created. The fleet of Japan has become a new factor in the strategic considerations of the world generally, as has the development now being witnessed in Germany. All such things must necessarily occasionally modify our action, but at the same time we do not wish merely to

say that we must ask for a few more ships in order to satisfy the public demand without knowing precisely why we ask for them or what we have in view in making our demands."

The second vote of the House of Commons for the Navy in 1898—that of the 22nd July—is best explained in Mr. Goschen's own words:—"In submitting the supplementary programme," he said, "I regret it should be my misfortune to have to introduce the name of any foreign power. But it is impossible to conceal that it is the action of Russia and the programme on which she is engaged which is the reason for our strenthening our fleet, and taking parallel action with her. Now, let it be distinctly understood that what we propose is not aggressive in the slightest sense. Let Europe note that we increase our naval power because we believe that it is absolutely essential to maintain the principle which we have laid down. I do not assume, I will not assume, I am not entitled to assume, that Russia's action is a menace to ourselves. Russia has possessions bordering on other powers. They are increasing year by year, and she is quite right in building up a fleet which she thinks her position in the world requires and warrants. We must take parallel action in what other powers do, not what other powers intend. The resources of this country in shipbuilding and engineering, our power of manufacturing what we require, the rapidity with which we can build ships, are such that if we lay down ships as others lay them down, I think we may be certain to keep pace with, if not to outstrip, other powers. What is the position? We know that six other Russian battleships are to be laid down this year, including one already commenced. We have now verified where these six ships are to be built. Of the six ships I took two into account in the original estimate, so the balance against us is four, and accordingly I must ask the House to sanction four battleships in addition to the original programme. From the last information we possess, the new Russian programme provides for four cruisers to be commenced this year, and we propose to commence an equal number of cruisers—that is to say, four cruisers in addition to the four in the original estimates. I cannot give the House any accurate idea of the expenditure, but I can give a general idea of the liabilities which will be incurred by this supplementary programme. If I take the ships, the armaments, and the ammunition—because, of course, they must all be included—the total liability is about £8,000,000. I must not minimize: I state it frankly to the House. The liability on the original programme for ships, armaments and ammunition amounts to £7,000,000. Therefore, taking the two programmes together, the cost of the new ships, which it is proposed, of course, to spread over a certain number of years, amounts to £15,000,000."

To sum up the statistical part of Mr. Goschen's two statements, they show that during 1898-99, the following vessels will be under construction or completion:—12 battleships, 20 first-class cruisers, 6 second-class cruisers, 10 third-class cruisers, 6 sloops, 4 twin-screw gunboats, 41 torpedo-boat destroyers, 1 Royal yacht.

Irrespective of these ships in building, or soon to be in building, the British Navy, according to the latest official return, consists, as the comparative table given above shows, of 382 vessels, of which 52 are battleships and 129 are cruisers.

The most costly of the newer ships at present in service in the British Navy is the first-class battleship Magnificent, built at Chatham and launched in 1895. Her total cost was £912,291. She is not the most costly ship in the Navy. This distinction attaches to the Inflexible, designed in 1873-74, launched in 1881, and on which £950,000 were expended. The Magnificent is one of nine of the same class known in the Navy list as the Majestic class. Her sister ships in service are the Jupiter, the Majestic, the Mars, the Hannibal and the Illustrious. The Magnificent is of steel, and of 14,900 tons displacement. She is 390 feet long, of 75 feet beam, and her maximum draught is 27 feet 6 inches. She has two propellers, and is of 12,000 indicated horse-power. Her side armour is of Harveyised steel, 9 inches thick. Her bulkhead armour is of the same material, 14·9 inches thick, and her gun position armour is 14·6 inches thick. Her deck plating is 4·5 inches thick. Her chief armament consists of 4 12-inch guns and 12 6-inch quick firing guns. She has five torpedo tubes. The bunker capacity of the Magnificent is 1850 tons. Her speed is 17·5 knots. Her crew numbers 757 men. All the ships of the class are similar as regards these details.

Since 1886 more expensive battleships have been the rule, and, as has been shown, as large a sum as £912,000 has been spent by the British Government for ships of the Majestic type. Sir William White, the Naval constructor, is, however, the authority for the statement that these British battleships, in proportion to their dimensions, are less costly than the battleships of France, Russia, Italy, or the United States. None of the European countries, excepting, perhaps, Germany, is able to add a first-class battleship to its navy for a less sum than one million sterling. The average cost of first-class modern armoured cruisers in the English Navy is about £475,000.

At the beginning of the naval year, 1898-99, there were 29 merchant steamers on the list of the Royal Navy Reserve. This list changes from year to year, as the leading British steamship companies add new vessels to their fleets. Usually when one of these companies—the Cunard or White Star, the Peninsular and Oriental, or the Canadian Pacific Railway Company—builds a steamer, the company agrees with the Government that the steamer shall be built according to the requirements of the Admiralty in respect to merchant cruisers, and shall be placed on the Royal Naval Reserve List. The ships on the Reserve List are divided into two classes, (1) those in respect of which the owners receive annual subsidies from the Admiralty and which fly the blue ensign, and (2) those vessels which are held at the disposition of the Admiralty without subsidy. In the first class there now are the Campania and the Lucania, for which the owners, the Cunard Company, receive £7,500 each per annum; the Himalaya and Australia, and Arcadia and Victoria, for which the Peninsular and Oriental Company receive £3,375 each for the first-named two, and £2,438 for each of the second-named two steamers; the Majestic and Teutonic, for which the White Star Line receives £7,265 and £7,396 respectively; and the Empress of India, Empress of China, and Empress of Japan, for which the Canadian Pacific Railway Company receive a total annual subsidy of £7,313.

In the second class of the Reserve, that in which no subsidy is paid, are the Etruria, Umbria, Servia, Gallia, and Aurania of the Cunard Line; the Britannic, Ger-

manic, and Adriatic of the White Star Line; and the Britannia, Oceania, Peninsula, Valetta, Oriental, Massilia, Rome, Carthage, Ballarat and Paramatta, of the Peninsular and Oriental Line. All these vessels now in the Second Class Reserve were built according to the Admiralty requirements at the time of their construction. At one time subsidies were paid in respect of them; but as the number of subsidies paid by the Admiralty is limited, the subsidies go to the newer vessels, and the older vessels pass into the second class.

These two classes do not include all the vessels which, if need be, the Admiralty can equip as merchant cruisers. There are many other ships on the Admiralty list, which in return for the promise of preference for occasional Government requirements, are placed at the call of the Admiralty. At the Naval Ordnance Depots in Great Britain, armaments are kept in readiness for merchant steamers on the reserve lists, and in the event of any of these merchant cruisers being required for war service, it has been arranged by the Admiralty that each vessel equipped for service shall receive twenty-six gunnery seamen from the naval depots, in addition to their full complements of royal naval reserve men.

In respect to coaling stations, as in respect to the size of the fleet, Great Britain is admittedly without a rival. On the trade route from England to the East, by way of the Suez Canal, Great Britain has coaling stations at Gibraltar, Malta, Aden, Ceylon, Singapore and Hong Kong. On the older route to the East, by way of the Cape, there are British coaling stations at Sierra Leone, St. Helena, Capetown, Mauritius. In the West Indies the coaling stations are at Port Castries on the Island of St. Lucia, and at Port Royal, Jamaica. Bermuda and Halifax are the coaling stations in the North Atlantic. Esquimalt is the station for the North Pacific; and in Australia the stations are on King George's Sound and on Thursday Island. Nearly all the stations are on islands, and are well defended. Gibraltar and Malta are regarded by naval experts as the only coaling stations liable to serious attack, and they are so open to attack because both of them are within easy distance of European ports. Both of them, however, have exceptionally powerful defences, and at the present time, as for several years past, works are in progress to make the anchorage at Gibraltar increasingly secure for British ships which might have occasion to use it in time of stress or danger. Part of the vote of £1,775,000 for naval works was for the defences of Gibraltar.

As the quotations from Mr. Goschen's speech of March 10, 1898, will have made plain, there have been large increases in recent years in the forces for manning the British ships of war. The increase for 1897-98 was 6,300; for 1898-99 it was 6,340. The last increase brought the total number of officers and men up to 106,390. In 1897, when asking for the increase of 6,300 men, Mr. Goschen assured the House of Commons that it was not the intention of the Admiralty to carry the maximum strength of the active naval force beyond 110,000 men. Ships which come into service after the maximum stated by Mr. Goschen has been reached, are, according to present intentions, to take the place of reserves, or replace older vessels which may have become obsolete. The number of men voted on March 10th, 1898—106,390—does not include either reserve men or pensioners. In the naval reserve there are now 1,700 officers, 22,000 seamen, 3,500 firemen and 300 boys. The seamen pensioner reserves number about 6,500.

As showing how the personnel of warships has changed with the character of the ships themselves, it may be stated that on battleships of the Majestic and Magnificent class the proportion of seamen is forty-five per cent.; engineers, eighteen per cent.; marines, thirteen per cent.; artisans, three per cent.; and domestic servants, bandsmen, hospital attendants, and the like, six per cent. The Powerful, which is a first-class cruiser of 14,200 tons displacement, 500 feet long and 71 feet beam, with a complement of 840 men, carries thirty-six per cent. of seamen. The Talbot, a second-class cruiser of 5,600 tons, 350 feet in length, 53 feet beam, and with a complement of 433 men, carries forty-four per cent. seamen; while on the Pelorus, a third-class cruiser of 2,135 tons displacement, and a complement of 224 men, the percentage of seamen is thirty-six. Stokers are the great factors in modern warships, and the most skilled of these men are to be found in the torpedo-boat destroyers. The training for engineers and stokers on these high speed vessels is so practical that nowadays these vessels are used as training ships for engine-room and furnace-room crews.

Like the English Army, the Navy is manned by volunteers, and there is no compulsory service in connection with it. A large proportion of the seamen enter the service as boys. They are accepted for training ships up to the age of eighteen, and when a boy reaches the age of eighteen his term of actual service in the Navy begins, and must last for at least twelve years. To be accepted for a training ship, a boy between the age of fifteen and fifteen and a half must be five feet and half an inch in height, with a chest measurement of thirty and a half inches. The height measurement is made without shoes. If accepted when between fifteen and a half and sixteen, a boy must be five feet and one and a half inches in height, and thirty-one inches round the chest. Between sixteen and sixteen and a half, a boy must be five feet two and a half inches in height, and thirty-one and a half inches round the chest.

The pay of seamen ranges from one shilling and three pence a day for ordinary seamen, to nine shillings a day for chief gunners and boatswains. Men who have put in nine years service in the Navy can pass into the Coast Guard Service. Those who stay in the Navy for a period of twenty-two years become entitled to pensions. The amount of pension is from eighteen pounds a year, upwards, according to the rating on retiring from the service. The average pension for men of all ranks is thirty-one pounds a year.

There are now 27,500 men in the Naval Reserve. The seamen of this force receive about twelve pounds a year from the Government, and put in thirty days a year of training. The days can be put in, one or two or three at a time, at the convenience of the seamen; and usually they are put in between voyages or trips, as there is a Naval Reserve ship at every important port in Great Britain. Within the last year or so the Admiralty has sought to make the Naval Reserve more attractive, and, in particular, it is now offering special inducements to men between 19 and 30 years of age engaged in the coasting or fishing trade, or employed on yachts. These men on first joining the reserve undergo a preliminary train-

MAP SHOWING THE NORTH AMERICAN AND WEST INDIAN STATION OF THE BRITISH FLEET.

ing which lasts for six months. Naval pensioners draw their pay subject to rejoining the service in case of need; and at the Admiralty these pensioners, to quote Mr. Goschen's appreciation of them, are regarded as of "incalculable value in stiffening a newly-drilled crew." As with many seamen in the Royal Navy, service for pension begins at 18 years of age, there is always a large proportion of pensioners who are in middle life.

For the work of the British Navy the world is divided out into nine stations. The number of ships and men on each station varies from time to time, so that the accompanying figures as to the distribution of the British naval forces, though taken from the latest procurable official returns, are not permanently correct. On the home station, according to these figures, there are 80 vessels and 35,780 men. Of the vessels 16 are battleships, 13 are cruisers, one is a coast defence ship, and nine of the others are gunboats. On the Mediterranean station there are 33 vessels, including ten battleships and seven cruisers, and in all 10,270 men. On the North American and West Indian station there are 14 vessels, of which eight are cruisers, and the number of men is 2,620. On the South-East Coast of America station there are five vessels, three cruisers and two sloops, and 700 men. On the Pacific station there are eight vessels, including four cruisers and 1,460 men. Sixteen vessels, including six cruisers, and in all 2,750 men, are on the Cape of Good Hope and West Coast of Africa station. On the East Indies station there are twelve vessels, including four cruisers, five gunboats and two coast defence ships, and in all 1,860 men. The China station has 28 vessels, including one battleship and 13 cruisers, and men to the number of 5,000. On the Australian station there are 16 vessels, including eight cruisers, and in all 2,580 men.

"Except for the small squadron France keeps off Newfoundland, and for the fleets of the States of the American Continents, we alone," said Mr. Goschen, in describing the naval stations in his speech of March 10th, 1898, "have squadrons where other nations have isolated ships. When we have to reinforce our foreign squadrons we send out fully-manned and fully-commissioned men-of-war, so that at all times, besides our squadrons, we have traversing the seas a certain number of ships in commission, ready for war, if war should occur, at any moment."

# BRITISH TAXATION.

Great Britain raises her revenue by direct and indirect taxation. In direct taxation are included the death duties, the land tax, the house duty, and the property and income taxes. Customs duties, excise duties, and stamps comprise the indirect taxation. The easiest way to explain these various taxes is to reprint a page from Great Britain's ledger, and deal with the items in the account one by one. The accompanying table is taken from the statement of Sir Michael Hicks Beach, the Chancellor of the Exchequer, made before the House of Commons on the 21st of April, 1898:—

| — | Total Revenue Year Ending March 31, 1898. |
|---|---|
| Customs | £22,005,302 |
| Excise | 33,267,126 |
| Estate, etc., Duties | 15,327,882 |
| Stamps | 7,650,000 |
| Land Tax | 940,000 |
| House Duty | 1,510,000 |
| Property and Income Tax | 17,250,000 |
| Post Office | 12,170,000 |
| Telegraph Service | 3,010,000 |

| Interest on Suez Canal Shares, etc. | 733,897 |
| Miscellaneous | 1,737,107 |
| | £116,016,314 |

### CUSTOMS AND EXCISE.

All customs duties are for revenue, and are imposed only on articles of luxury. There have been no protective duties in Great Britain since the Corn Laws were repealed in 1846. The articles on which duties are now paid are chicory, cocoa, coffee, currants, raisins, tea, tobacco, beer, spirits, wines and playing cards. Chicory pays thirteen shillings and threepence per hundredweight; cocoa, one penny a pound; coffee, fourteen shillings a hundredweight; currants, two shillings per hundredweight; and tea, fourpence a pound. For fifty-six years prior to 1898, unmanufactured tobacco paid three shillings and twopence a pound. It now pays two shillings and eightpence, part of the surplus of 1897-8 having been used to bring about this reduction in duty. Spirits pay from four shillings and fourpence to ten shillings and fourpence a gallon; wines, from one shilling to two shillings and sixpence a gallon, with an additional duty of two shillings a gallon on sparkling wines imported in bottle. Beer pays from one pound eight shillings to one pound twelve shillings and tenpence per barrel of thirty-six gallons. Playing cards are charged in the customs tariff at the rate of three shillings and ninepence per dozen packs. There is also an excise duty of threepence per pack. Excise duties are levied on beer and British spirits about the same scale as the customs duties. Excise duties are, however, collected by the Department of Inland Revenue.

### THE DEATH DUTIES.

Within the category of the death duties there are (1) the Estate duty; (2) the Legacy duty; and (3) Succession duties. The death duties are now imposed under the Finance Act of 1894, carried through Parliament when the Liberals were in power from 1892-5, and when Sir William V. Harcourt was Chancellor of the Exchequer. In one form or another, death duties had been paid prior to 1894, but most radical changes were then effected, especially as regard the estate duty.

### THE ESTATE DUTY.

This duty is now payable on the principal value of all property, whether real or personal, settled or not settled, which passes after death. Where the net value of the estate does not exceed one hundred pounds, no duty is payable. Where the gross value exceeds one hundred pounds, but does not exceed three hundred pounds, the duty is only thirty shillings; and where it exceeds three hundred pounds, but not five hundred pounds, the duty is fifty shillings. Otherwise, the estate duties are as set out in the accompanying table:

| Principal Net Value of Estate. | Rate Per Cent. |
|---|---|
| Above £ 500, but not above £ 1,000 | 2 |
| Above 1,000, but not above 10,000 | 3 |
| Above 10,000, but not above 25,000 | 4 |
| Above 25,000, but not above 50,000 | 4½ |
| Above 50,000, but not above 75,000 | 5 |
| Above 75,000, but not above 100,000 | 5½ |
| Above 100,000, but not above 150,000 | 6 |
| Above 150,000, but not above 250,000 | 6½ |
| Above 250,000, but not above 500,000 | 7 |
| Above 500,000, but not above 1,000,000 | 7½ |
| Above 1,000,000 | 8 |

The Conservatives offered the greatest opposition to Sir William Harcourt's measure establishing the Estate Duty. When they came into power in 1895, however, they did not interfere with it. To compensate the land owners, who with the industrial and financial millionaires, are worst hit by the Act of 1894, the Conservative Government in 1896 passed a measure under which each year a large grant is made from the Imperial Treasury to relieve local rating in the rural disrticts. In explaining his Budget in 1898, Sir Michael Hicks Beach stated that from seven of the millionaire estates which paid duty in 1897-98, a sufficient sum of money was forthcoming to pay more than half of the total amount which was necessary to meet the annual grant in relief of local taxation. "Though I do not know that I have any special predeliction in favour of millionaires anywhere," added the Chancellor of the Exchequer, "I am very glad to say that out of these seven millionaires, two were foreigners. They returned what appears to me an adequate amount for the protection and recreation which during their lives they enjoyed in this country."

### THE LEGACY DUTY.

The Acts of Parliament regulating the Legacy duty are 55 George III., C. 184; 51 Victoria, C. 8; and the Finance Act of 1894. The duty is payable in respect of personal estate (including proceeds of sale of real estate) passing on death either under a will or in case of intestacy. The rates of duty are as follows:

| Description of Legatee. | Rate of Duty. |
|---|---|
| Children of the deceased and their descendants, or the father or mother or any lineal ancestor of the deceased, or the husbands or wives of any such persons | £ 1 % |
| Brothers and sisters of the deceased and their descendants, or the husbands or wives of any such persons | 3 % |
| Brothers and sisters of the father or mother of the deceased and their descendants, or the husbands or wives of any such persons. | 5 % |
| Brothers and sisters of a grandfather or grandmother of the deceased and their descendants, or the husbands or wives of any such persons | 6 % |
| Any person in any other degree of collateral consanguinity or strangers in blood to the deceased | 10 % |

### SUCCESSION DUTY.

Succession duty is regulated by 16 and 17 Victoria, C. 51; 51 Victoria, C. 8; and the Finance Act of 1894. It is payable in respect of real estate, including leaseholds, passing on death, and in certain cases in respect of settled personal estate. The rates of duty are as follows:—

| Description of Successor. | Rate of Duty. |
|---|---|
| Lineal issue or lineal ancestor of the predecessor, or the husband or wife of any such person | £ 1 % |
| Brothers and sisters of the predecessor and their descendants, or the husbands or wives of any such persons | 3 % |
| Brothers and sisters of the father or mother of the predecessor and their descendants, or the husbands or wives of any such persons | 5 % |
| Brothers and sisters of a grandfather or grandmother of the predecessor and their descendants, or the husbands or wives of any such persons | 6 % |
| Persons of more remote consanguinity, or strangers in blood | 10 % |

The husband or wife of deceased is exempt from legacy or succession duty. Where the whole net value of the estate does not exceed £100, no legacy or succession duty is payable. In case of persons dying leaving issue, the estate duty covers legacy and succession duty. In case of persons dying domiciled in the United Kingdom legacy duty is payable on all movable property wherever situated. In case of persons dying domiciled abroad no legacy duty is payable on movable property. The death duties, as the table at the outset of this article shows, now rank fourth in the revenue producing sources of the British Government.

### STAMP DUTIES.

There is scarcely a commercial or legal document in use in Great Britain on which stamps have not to be affixed. The stamps range in value from one penny, in the case of bank cheques and receipts over £2, to stamps of the value of £20 and upwards used on deeds for the conveyance of real estate. The commercial stamp most in use is the receipt stamp. Up to about twenty years ago special stamps were issued for this purpose. Nowadays postage stamps are used for receipting bills. All accounts amounting to over £2 must be so stamped; otherwise the receipted bill is invalid as documentary evidence in legal proceedings. As bank cheques have also to carry a penny stamp, the Government receives twopence on the great majority of business transactions involving payments of over £2.

Dodsley, the famous eighteenth century bookseller, is credited with having suggested the receipt stamp as a means of raising revenue. He made the suggestion in 1782 to the Rockingham Government, when it was needing money for the conduct of the American war. The receipt stamp dates from 1783, and has continuously had its place on this description of commercial paper since that time. When it was first imposed it was intended that the person paying the bill should pay for the stamp. But tradesmen found it impracticable to ask their customers for the penny for the stamp. The London tradesmen petitioned parliament to repeal the imposition because, to quote from one of the petitions, "traders in general are in such a situation that they cannot refuse the receipt gratis without giving offence." No heed was given to this petition, which was presented in 1784. At the present time receipt stamps and penny stamps to be used on other descriptions of commercial paper, net the government nearly one and a half millions sterling a year.

Among the miscellaneous impositions classed under stamps in the foregoing table, are inland revenue charges of two pounds two shillings for the use of armorial bearings on carriages; one pound one shilling for the use of armorial bearings for any other purpose; charges ranging from fifteen shillings to two pounds two shillings for carriages kept for pleasure or for hire; seven shillings and sixpence for dogs; fifteen shillings for male servants in livery; five shillings as license fees from vendors of patent medicines; and five shillings and threepence as license fees from dealers in tobacco and snuff. License fees are also paid by people using guns, killing game and selling game. All these fees are collected by the Department of Inland Revenue, which has an office and a staff in every large town.

### LAND TAX.

The Land Tax, one of the oldest of British direct taxes, is now one shilling in the pound rental value. It can never exceed four shillings in the pound. It last stood at the maximum in 1896. It is chargeable on the assessed value of land, but since 1898 lands under the value of five pounds per annum have been free of the tax. All lands do not now pay the tax. For more than a century past it has been possible to redeem the tax at so many years' purchase, and all over the country there are lands which have been so freed. The land tax figures quite prominently in English constitutional

history. Before registers of parliamentary voters were established in 1835, freeholders voting at parliamentary elections had to produce their land tax receipts, or satisfy the returning officers that the land tax had been commuted. Nowadays when the tax is redeemed, the money received is devoted to paying off the national debt.

HOUSE DUTY.

Occupiers pay the House Duty, which is chargeable at so much in the pound on annual rental value of the house. The duty is not chargeable on houses below the value of twenty pounds a year, a fact which has much to do with the uniformity in size and style of middle-class houses in the larger towns of England. Shops or stores pay a lower rate than houses. On shops of the value of twenty pounds, and not exceeding forty pounds, the duty is twopence in the pound; on houses of the same value, threepence in the pound. On shops above forty pounds, and under sixty, the duty is fourpence; on houses of the same value, sixpence in the pound. Shops valued at sixty pounds a year, and upwards, pay sixpence in the pound; and houses over sixty pounds, ninepence in the pound.

PROPERTY TAX.

The Property Tax, which is at the same rate as the house duty, is also chargeable on occupiers; but where the occupier is not the owner, the law directs him to deduct the property tax from the rent. When a man is both occupier and owner, he pays both the house duty and the property tax. In cases where persons in the dual position of occupier and owner have mortgages on their houses, they charge the property tax proportionately upon the holders of the mortgages, who, as in the case of the owners of rented houses, are compelled by law to submit to the deduction. The object of this arrangement is to save the surveyors of taxes from the trouble of tracing the owners of property. The same plan has long been adopted in connection with municipal taxes or rates, as they are called in England, in contradistinction from imperial taxes. The occupier of the house pays all rates, except in the case of cottages.

INCOME TAX.

The Income Tax, as it now stands, is regulated by the Finance Act of 1894, and by an amendment which was made in the Finance Act of 1898. The Finance Act of 1894—that which also imposed the existing heavy death duties on large estates, made important changes in the Income Tax as it had existed since 1876, all in the interest of persons whose incomes are under £500 a year. From 1861 to 1878, incomes as low as £100 paid the tax, which in that period ranged from twopence to seven pence in the pound. From 1878 to 1894, the tax was chargeable only on incomes of £150 or more; and between these years the tax ranged from threepence to eightpence in the pound. During that period when a man in receipt of less than four hundred pounds was paying his income tax, he was permitted to deduct £120 from his total income; so that a man earning £150 paid income tax only on £30. On incomes over £400 the abatement was not allowed, and the taxpayer paid on the total amount of his income. During this period the joint incomes of husband and wife, whether from earnings or investments, were treated as one income, and if the two incomes aggregated £400, the benefit of the £120 abatement was lost.

Under the existing laws, incomes of less than £160 are totally exempt; and on incomes of under £400 an abatement of £160 is allowed. On incomes between £400 and £500, an abatement of £150 is allowed; between £500 and £600, £100; and between £600 and £700, £70. Thus a man must have an income of £700 before he pays income tax in respect of it all. From 1894 to 1898, a man in receipt of more than £500 paid his income tax without any abatement. The abatements in the case of incomes between £500 and £700 were made by the Finance Act of 1898. Since the Act of 1894 the incomes of husband and wife have been assessed separately for income tax, and each comes within the law as to exemptions and abatements. *In making out his income tax return a man is entitled to deduct payment for life insurance.

# LEGAL AND JUDICIARY.

## Supreme Court of the Dominion.

The Supreme Court, as a high Court of Appeal constituted by Dominion Statute (see Revised Statutes of Canada, Chap. 135), is composed of a Chief Justice and five Puisne Judges, and has appellate, civil and criminal jurisdiction within and throughout the Dominion of Canada. The Judges reside at Ottawa, where the Supreme Court holds annually three Sessions—the first beginning on the third Tuesday in February, the second on the first Tuesday in May, and the third on the first Tuesday in October.

| George E. King, Puisne Judge | 7,000 |
| Hon. Désiré Girouard, Puisne Judge | 7,000 |
| E. R. Cameron, Registrar | 3,200 |
| C. H. Masters, Reporter | 1,850 |
| L. H. Coutlee, Assistant Reporter | 1,450 |

## The Exchequer Court of the Dominion.

The Exchequer Court, also constituted under a Dominion Statute (see 50-51 Vict. Chap. 16), is presided over by one Judge and has original exclusive jurisdiction in all claims, suits or actions against the Crown. It has concurrent jurisdiction in relation to revenue cases and the enforcement of penalties, in cases in which it is sought at the instance of the Attorney-General of Canada to impeach or annul any patent of invention, or any patent case or other instrument respecting lands; cases against Crown officers for anything done or omitted to be done as such officer, and all actions or suits in which the Crown is plaintiff or petitioner.

| Hon. Geo. W. Burbidge, Judge of the Court | $6,000 |
| L. A. Audette, Esq., Registrar | 2,000 |

## Admiralty Division.

In pursuance of the powers given by "The Colonial Court of Admiralty Act, 1890," the Exchequer Court of Canada is declared a Colonial Court of Admiralty. (See 54-55 Vic., Cap. 29.)

The Admiralty Court has all rights and remedies in all matters (including cases of contract and tort and proceedings *in rem* and *in personam*) arising out of or in connection with navigation, shipping, trade and commerce, which may be had or inforced in any Colonial Court of Admiralty, under "The Colonial Court of Admiralty Act, 1890," throughout Canada and the waters thereof, whether tidal or non-tidal, or naturally navigable or artificially made so.

Admiralty business may be transacted at the office of the Exchequer Court at Ottawa, or at the local registry offices.

There are Admiralty Districts presided over by Local Judges in Admiralty as follows:—

*(a)* The Province of Quebec constitutes the District of Quebec with Registry at the City of Quebec.

*(b)* The Province of Nova Scotia constitutes the District of Nova Scotia with Registry at the City of Halifax.

*(c)* The Province of New Brunswick constitutes the District of New Brunswick with Registry at the City of St. John.

*(d)* The Province of Prince Edward Island constitutes the District of Prince Edward Island with Registry at the City of Charlottetown.

*(e)* The Province of British Columbia constitutes the District of British Columbia with Registry at the City of Victoria.

*(f)* The Toronto Admiralty District has its Registry at the City of Toronto, the limits being from time to time fixed by the Governor-in-Council.

OFFICERS OF THE TORONTO ADMIRALTY DISTRICT.

*Local Judge*, J. E. McDougall, Q.C.
*Registrar*, John Bruce.
*Marshal*, William Boyd.

## The Supreme Court of Judicature for Ontario.

COURT OF APPEAL FOR ONTARIO.—Constituted for the hearing of appeals from the High Court of Justice, and from the County Courts. From the judgment of this Court an appeal lies, at the option of litigants, either to the Supreme Court of the Dominion, or to Her Majesty in Privy Council, in cases over £1,000, or where annual rent, fee, or future rights of any amount, are affected. The Judges of this Court may be placed on the rota for the trial of Election petitions, with the Justices of the High Court, who as *ex-officio* Judges of this Court, choose from their number a Judge or Judges to sit in Appeal in case of there being a vacancy in this Court, or if, from illness or some other cause, one of the Judges of the Court is unable to be present, or is under any legal disqualification to hear an appeal. Sittings are held at such times and for such periods as the Judges shall, from time to time, deem necessary or convenient for the speedy dispatch of business, the five regular sittings being the first Tuesday in March and September, and the second Tuesday in January, May and November; due notice of the time of holding of further sittings being given. If required, a second division of the Court, consisting of Judges of the High Court, can also sit for the disposal of business.

*Chief Justice of Ontario*—Sir George W. Burton ($6,000). *Justices of Appeal*—Hon. F. Osler, Hon. James Maclennan, Hon. Charles Moss, Hon. J. F. Lister ($5,000 each). *Registrar*—Alexander Grant. *Assistant Registrar*—Charles S. Grant. *Usher and Messenger*—E. Oliver.

## High Court of Justice for Ontario.

The jurisdiction of this Court extends to all manner of actions, causes and suits, criminal and civil, real, personal and mixed, within Ontario, and it may proceed in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may hear and determine all issues of law, and also (with the inquest of twelve good and lawful men in the cases provided for) try all issues of fact, and give judgment, and award execution thereon, and also in matters which relate to the Queen's Revenue (including the condemnation of contraband or smuggled goods) as may be done by Her Majesty's Superior Courts of Law in England, and also the like jurisdiction as the Court of Chancery in England, in cases of fraud, accident, trusts, executors, administrators, co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific

performance, discovery, and to prevent multiplicity of suits, and may decree the issue, repeal, or voidance of letters patent, and generally the like powers which the Court of Chancery in England possesses to administer justice in all cases in which there is no adequate remedy at law.

Divisional Court sittings are held on the first Monday of each month (except vacation) to dispose of such matters as may properly be brought before a Divisional Court.

Law Circuits.—*Sittings for Hearing of Actions.*—In the Counties of York, Wentworth, Carleton and Middlesex, there is held an additional such Court in every year, in the vacation between Michaelmas and Hilary Terms; and in the County of York there is held another such Court, between Easter Term and the first day of July. Whenever in any year the judges may determine that it is not necessary to hold the latter such sittings may be dispensed with. The sittings for hearing of actions may, in the discretion of the Judges, be held separate and apart from the Courts of Oyer and Terminer, and General Gaol Delivery.

The Courts in each Circuit are presided over by the Chancellor or by a retired or present Justice of the High Court or of the Court of Appeal, or by a Judge of a County Court, or by some one of Her Majesty's Counsel learned in the law, requested by the Chancellor or one of the Justices to act in that behalf.

Weekly Sittings.—A Judge sits at Osgoode Hall every week except vacation for the purpose of disposing of all business except trials which may be transacted by a single Judge. Chamber business on Mondays and Fridays. Court business on Tuesdays, Wednesdays and Thursdays. Sittings will be held at Ottawa and London respectively at least one day in each week (except vacation) to dispose of certain matters which can be determined by a single Judge. The Judges have now power on petition to constitute monthly or semi-monthly sittings in lieu of weekly.

Chambers.—Chambers are held each day for such business relating to actions as may be transacted by a single judge out of Court. The Master in Chambers is empowered to obtain the assistance of any Official Referee to sit with or for him.

Long Vacation extends from the 1st of July to the 31st of August, both inclusive. There is also a vacation from the 24th December to 6th January, both inclusive.

Heir and Devisee Court.—Commissioners, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to land in Ontario, for which no patent has issued from the Crown in favor of the proper claimants, whether as heirs, devisees, or assignees. Sittings at Toronto, first Monday in January and July in each year. *Judges*—The Judges of the Superior Court (*ex-officio*), others appointed by commission.

Courts for the Trial of Controverted Elections.—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts by one of their Judges appointed in that behalf, are invested with special Jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Supreme Court of Judicature meet annually on or before the third day of Michaelmas sittings and severally elect, by a majority of votes, a Judge from their respective Courts or Division to be placed on the rota for the trial of election petitions during the ensuing year. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single Judge presides, and an appeal lies to the Court of Appeal of the Province.

Criers and Ushers—Robt. Lawson, D. J. O'Donohoe, W. M. Perry.
Messenger—Jas. Gorrie.
Maritime Court of Ontario.—By 54-55 Vic., Cap. 29, this court has been abolished except as to pending business. *Judge*—J. E. McDougall, Q.C. *Registrar*—John Bruce. *Marshal*—Wm. Boyd.

County Courts.—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed $200; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to $600; and to all bail bonds and recognizances of bail given in the County Court, to any amount; in actions of contract to any amount if parties agree to try same in County Court, for recovery of or trespass to land where land does not exceed $200 in value, partnership actions where capital was not over $1,000, for legacies not exceeding $200, where estate is $1,000 or under, to enforce mortgages or liens, or for redemption, or for equitable relief where claim does not exceed $200, to establish claim on insolvent estate where claim does not exceed $400; but not to cases involving the title to lands of greater value than $200, validity of devises or bequests exceeding $200, nor where estate exceeds $1,000, or actions for libel, slander, crim. con., or seduction. An appeal lies to the Court of Appeal of Ontario.

County Court Sittings and Court of General Sessions.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his

county, for the trial of issues of fact, semi-annually on the second Tuesday in June and December, except in the County of York, in which county said Court is held four times, commencing on the first Tuesday in December and March, and the second Tuesday in May and September, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction, and (except in the County of York) a sitting for the trial of issues without a jury shall be held in each county on the first Tuesday in April and October in each year. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury.

COUNTY JUDGE'S CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions *may, with their own consent*, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted, be sentenced by said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COUNTY COURT TERMS.—The several County Courts in Ontario hold four sittings in each year, commencing respectively on the second Monday in the month of January, and the first Monday in the months of April, July, and October, except the County of York, which commences on the first Monday in April, and the second Monday in January, June and October, and ending on the Saturday of the same week, unless extended by order of the Judge.

BOARD OF COUNTY JUDGES.—*Chairman*—S. J. Jones, County Brant. *Members*—D. J. Hughes, County Elgin; E. J. Senkler, County Lincoln; H. S. McDonald, Counties Leeds and Grenville; W. W. Dean, County Victoria.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists for Provincial Elections.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting and revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effect in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Chancery Division. The County Judges are also Judges of the Surrogate Courts.

DIVISION COURTS are held for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract where the balance claimed is over $100 and under $200 and the original amount was ascertained by the signature of the defendant, and to $100 in other cases of debt, subject in some cases to an appeal to the Court of Appeal; but the sum of the account to be sued into cannot exceed $400; injuries or torts to personal chattels amounting to $60; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquor drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are held once in two months in each Division, or oftener at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

## APPOINTMENT OF JUDGES IN CANADA.

By the British North American Act it is provided that the Governor General shall appoint the Judges of the Superior, District and County Court, except those of the Courts of Probate in Nova Scotia and New Brunswick, and that their salaries, allowances and pensions shall be fixed and provided by the Dominion Parliament. It is also provided that the Judges of the Courts of Quebec shall be selected from the Bar of that Province, and there is a similar provision for the selection of the Judges in Ontario, Nova Scotia and New Brunswick, until the laws relative to property and civil rights and the procedure of the courts in those Provinces are made uniform.—*Statistical Record.*

# THE LAW OF INTESTATES ESTATES.

## DESCENT AND DISTRIBUTION OF PROPERTY.

As to all persons who died before the first day of January, 1852, the rules of descent are substantially the same as in England at that date.

Real estate of persons who died intestate (*i.e.*, who have left no will) after that date and prior to the first day of July, 1886, descends first to lineal descendants and those claiming by or under them *per stirpes*, second to father, third to mother, and fourth to collateral relatives, subject to certain rules and regulations prescribed in the statute.

The surplus personal estate of intestates who died prior to the first day of July, 1886, is, after the expiration of one full year from the death of the intestate, to be distributed in the following manner: One-third shall go to the widow of the intestate, and the residue in equal proportions to his children, or if dead, to their lineal descendants; if there are no children or legal representatives subsisting, then where the net value of the real and personal estate does not exceed $1,000, same belongs absolutely to the widow, and as to any excess over and above said amount after payments of debts, etc., the widow takes a moiety, and the other moiety goes to the next of kindred, in equal degree, and their representatives; if no widow, all to children; if neither widow nor children, all to next of kin, in equal degree, and their representatives. But no representation is admitted among collaterals further than children of intestate's brothers and sisters.

All real and personal property of persons dying on or after the 1st day of July, 1886, devolves upon and becomes vested in the legal personal representatives for the period of a year (which may be extended in a prescribed manner) subject to the payment of debts and to the effectual dispositions of deceased. The real and personal property of a married woman, in respect of which she has died intestate, shall be distributed as follows: One-third to her husband, if she leaves issue, and one-half if she leaves none, and subject thereto, shall go as if her husband had predeceased her. The realty and personalty comprised in a residuary devise or bequest is (unless the will otherwise directs) applicable ratably according to their respective value to the payment of the debts.

TABLE SHOWING THE DISTRIBUTION OF PERSONAL PROPERTY OF INTESTATES IN ONTARIO SINCE JULY 1ST, 1886.

| *If the Intestate die leaving:* | *His representatives take in the following proportions:* |
|---|---|
| Wife and child or children | One-third to wife, rest to child or children; if children dead, then to their representatives (that is, their lineal descendants), except such child or children (not heirs-at-law) who had estate by settlement of intestate or were advanced by him in his lifetime equal to the other shares. |
| Wife only | Net value of estate not exceeding $1,000 to wife absolutely. Excess over $1,000, half to wife; and half to next of kin, in equal degree to intestate, or their legal representatives, or if no next of kin, to the Crown. |
| No wife or child | All to the next of kin, and to their legal representatives. |
| Child, children or their representatives | All to him, her or them. |
| Children by two wives. | Equally to all. |
| If no child, children or representatives | All to next of kin, in equal degree to intestate. |
| Child or grandchild by deceased child | Half to child, half to grandchild, who takes by representation. |
| Husband only | Half to him and half as if he had predeceased intestate. |
| Husband and child or children | Third to husband and two-thirds to children. |
| Father and mother | Equally to both. |
| Father, mother, brother or sister | Equally to all. |
| Mother and brother or sister | Whole to them equally. |
| Wife, mother, brother, sister, and nephews or nieces | Half to wife, residue to mother, brothers, sisters and nieces, but nephews and nieces take *per stirpes*. |
| Wife and father | Half to wife, half to father. |
| Wife, mother, nephews and nieces | Two-fourths to wife, one-fourth to mother and one-fourth to nephews and nieces. |
| Wife, brother or sister and mother | Half to wife, half to brothers, sisters and mother equally. |
| Mother only | The whole (it being then out of the statute). |
| Wife and mother | Half to wife and half to mother |
| Brother or sister of whole blood, and brother and sister of half blood | Equally to both. |
| Posthumous brother or sister, and mother | Equally to both. |
| Posthumous brother or sister, and brother or sister born in lifetime of father | Equally to both. |
| Father's father and mother's mother | Equally to both. |
| Uncle's or aunt's children, and brother's or sister's grandchildren | Equally to all. |
| Grandmother, uncle or aunt | All to grandmother. |
| Two aunts, nephew and niece | Equally to all. |
| Uncle and deceased uncle's child | All to uncle. |
| Uncle by mother's side, and deceased uncle's or aunt's child | All to uncle. |
| Nephew by brother, and nephew by half-sister | Equally *per capita*. |
| Brothers or sisters, and nephews or nieces | Equally (but the nephews or nieces take *per stirpes*). |
| Nephew by deceased brother, and nephews and nieces by deceased sister | Equally *per capita*. |
| Brother and grandfather | All to brother. |
| Brother's grandson and brother or sister's daughter | All to daughter. |
| Brother and two aunts. | All to brother. |

# BOUNDARIES OF CANADA.

The Dominion of Canada is about 3,500 miles from east to west and 1,400 miles from north to south.

It comprises the whole of the northern half of North America with the exceptions, on the west, of Alaska and on the east, of Labrador, which latter is under the jurisdiction of Newfoundland, this colony not yet having entered the Canadian confederation.

Canada is bounded on the north by the Arctic Ocean; on the west by Alaska and the Pacific Ocean; on the east by the Gulf of St. Lawrence and Labrador, and on the south by the Atlantic Ocean and the United States of America. The latter boundary (starting from the Atlantic seaboard) commences at the mouth of the St. Croix River, which empties into the Bay of Fundy, then follows this river and Lake Chiputnecook and passes due north until it strikes the St. John River; thence by that river and one of its western branches it reaches the water-shed between the St. Lawrence River and the Atlantic, which it follows by a tortuous south-westerly course to the 45th parallel of north latitude in longitude 71° 30″ west; then by that parallel it passes westward to the St. Lawrence River and along mid-channel of that river and of the Lakes Ontario, Erie, Huron and the main portion of Lake Superior to the mouth of Pigeon River; thence by it and Rainy River it gains the north-west angle of Lake of the Woods; thence it follows the 49th parallel to the Gulf of Georgia and thence passes by the Haro Straits and the Straits of Fuca to the Pacific Ocean. The length of this frontier line is 3,000 geographical miles, 1,400 miles being a water line by rivers, lakes and seas, and 1,600 miles being a land boundary.

In addition to this boundary line between Canada and the United States there is a boundary between Canada and Alaska (belonging to the United States by purchase from Russia in 1867). This line is in process of delimitation by joint commission.

## The Law Society of Ontario.

The Law Society was first established in 1797 by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under Revised Statutes of Ontario, c. 145, 1887, the Benchers are, exclusive of *ex-officio* members, elected by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elected*, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head-quarters of the Society, in which is provided accommodation for the Court of Appeal and Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

### Close Season for Game in Ontario.

The close season for Deer, Elk, Moose, Reindeer and Caribou is from 15th Nov. to 1st Nov. of the following year, but no Moose, Elk, Reindeer or Caribou must be hunted or killed before 25th October, 1900. No dogs must be allowed to run Deer in the close season. No person must kill more than two Deer in the season. Hunting or killing Deer by what is known as "crusting" or while they are "yarding" is forbidden. Deer must not be hunted or killed in the water. No common carrier or other person shall transport or have in possession for that purpose, any deer, the head or raw skin thereof, save only from 1st Nov. to 22nd Nov. in each year, unless accompanied by an affidavit that same was taken during the open season.

The close season for Grouse, Pheasants, Prairie Fowl, Partridge, Woodcock, Snipe, Rail, Plover or any other water-fowl or game bird or animal, including black or grey Squirrels and Hares, is from 15th Dec. to 15th Sept. in the following year. For Quail or wild Turkeys from 15th Dec. to 15th Oct. of the following year, but no wild Turkeys must be killed before 15th Oct., 1900, and no prairie fowl or English or Mongolian pheasants before 15th Sept., 1900.

The close season for Swans and Geese is from 1st May to 15th Sept., and for Ducks of all kinds from 15th Dec. to 1st Sept. following. No person shall kill more than 400 Ducks during the season.

No wild fowl must be killed or shot at between half an hour after sunset and half an hour before sunrise, nor on the Lord's Day.

No Snipe, Woodcock or Partridge shall be sold or purchased before 15th Sept., 1900. No Quail or Wild Turkey shall be sold or purchased before 15th Oct., 1900.

No beaver or otter shall be hunted, taken, killed, or had in possession between 1st April and 1st Nov., nor trap set for them during that period, and no muskrat between 1st May and 1st Jan. But no beaver or otter shall be hunted, taken or killed before 1st Nov., 1900.

No person except residents of Ontario shall be entitled to hunt without first procuring a license from the Provincial Secretary, the cost of which is $25.

The Game Laws do not apply to Indians or to settlers in unorganized townships or territory not divided into townships, who kill game for food.

NOTE.—For further particulars address E. Tinsley, Chief Game Warden, Parliament Buildings, Toronto.

**Synopsis of Fishery Laws.**—Net fishing of any kind is prohibited in public waters, except under Leases or Licenses. The size of nets is regulated so as to prevent the killing of young fish. Nets cannot be set or seines used so as to bar channels or bays. A general weekly Close-time is provided in addition to special close seasons. The use of Explosive or Poisonous substances for catching or killing fish is illegal. The use of fire-arms for killing fish is prohibited. Mill-dams must be provided with efficient fish passes. Models or drawings will be furnished by the Department of Marine and Fisheries on application.

The above enactments and close-seasons are supplemented in special cases, under authority of the *Fisheries Act*, by a total prohibition of fishing for stated periods. All communications relating to Fisheries should be addressed: Department of Marine and Fisheries, Ottawa.

## Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees are all appointed by the City Councils, except where there is only one school in the County. The Principal must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Besides fees, local rates must be raised. Every High School with two qualified teachers receives a fixed amount of $400, and also a certain sum on salaries of teachers, general equipment, suitability of school premises and attendance. High Schools which have an average attendance of 60 pupils, may be made Collegiate Institutes, and receive additional grant. Pupils attending these schools are prepared for Matriculation in the Universities. There were 37 Collegiate Institutes and 93 High Schools, with 24,390 pupils, in Ontario in 1897.

## Public Schools.

Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality. There were 5,999 Public (including 340 separate) Schools, with 490,168 pupils, in Ontario in 1897.

## Educational Museum.

Connected with the Education Department is a Museum, containing specimens of school apparatus and furniture, a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts. The Museum is freely open to the public from 9 a.m. to 5 p.m.

## Total Number of Educational Institutions

Of all kinds reported by the Education Department as in operation in the Province of Ontario during 1897, was 6,136, attended by 508,626 pupils, and expending $5,278,466 in their support.

## PARDONS IN CANADA.

In the matter of pardons of convicts in the penitentiaries, prisons, jails and reformatories, the application for clemency should be prepared in the form of a petition addressed to His Excellency the Governor-General, stating the age and name of the convict or prisoner, name of the judge or magistrate who tried and sentenced him, crime committed and date of sentence, term of imprisonment, where incarcerated and reasons for seeking the exercise of the clemency of the Crown. This petition should be addressed to the Secretary of State at Ottawa, and signed by one or more persons, with any documentary evidence or letters, regarding the previous character of the prisoner, etc., etc. The matter is then submitted to the Department of Justice, where full enquiries are made into the case and the papers are subsequently laid, with the advice of the Minister of Justice, before His Excellency the Governor-General, whose pleasure is communicated by the Secretary of State to the parties interested and to the warden of the penitentiary or keeper of the jail, as the case may be.

In capital cases, the judge after sentencing the prisoner forwards, under the authority of Section 937 of "The Criminal Code, 1892," a copy of the evidence and his report to the Secretary of State. Any application for the commutation of the death sentence should be addressed to His Excellency the Governor-General in Council through the Secretary of State in the form of a petition setting forth reasons for such application in various paragraphs, etc., 1, 2, 3. The application or applications are referred to the Minister of Justice and are there carefully considered, and submitted by him with his recommendation to the Governor General in Council, whose pleasure is communicated to the interested parties by the Secretary of State.

## REMISSION OF FINES.

Where a remission of a fine is sought, action is only taken upon the report of the department concerned—for instance, the Department of Inland Revenue, Customs Department, etc.

# LIFE INSURANCE.

The Dominion Government requires all life insurance companies doing business in Canada to make up, under oath, and deposit with the Superintendent of Insurance within two months after the close of the year, in the form prescribed by law, a statement of their affairs. These statements are subsequently verified by the Superintendent of Insurance, by personal examination at the company's chief offices, and embodied in an annual report to Parliament The business of life insurance may be said to be wholly transacted by companies authorized by the Dominion Government, there being but one or two institutions incorporated by provincial legislation.

In 1897 there were 33 companies operating in Canada, as follows:

| | |
|---|---|
| Canadian companies | 15 |
| British " | 8 |
| American " | 10 |
| | 33 |

The new business transacted in 1897 was $48,267,665, distributed as follows:—

Canadian Companies, $30,351,021, or 63% of the whole.
British " 2,778,510, " 6% " "
American " 15,138,134, " 31% " "

The amount taken by native companies exceeded that taken by the British and American together by more than $12,400,000.

The total amount of insurance in force December 31st, 1897, was $344,012,277 (or over four times what it was at the close of 1876), allocated as follows:—

Canadian Companies, $208,655,459, or 61% of the whole.
British " 35,293,134, " 10% " "
American " 100,063,684, " 29% " "

Formerly the American companies held the foremost place, but for many years they have been obliged to give way to the energetic enterprise of the home companies, whose total business now exceeds that of the American companies twice over.

In 1897 the combined Life Companies received $11,215,818 in premiums, distributed thus:

Canadian Companies, $6,598,012, or 59% of the whole.
British " 1,174,732, " 10% " "
American " 3,443,074, " 31% " "

while the total amount paid to policy-holders was $7,076,962, leaving a balance of $4,138,856, which was mainly carried to reserve and surplus.

The figures in the following table are taken from the latest Government returns, being for the year ending December 31st, 1897:

| Canadian Companies. | Assets. | Liabilities. | New Insurance in Canada |
|---|---|---|---|
| Canada Life | $18,678,915.67 | $17,114,833.62 | $3,627,733 |

* As at Dec. 31st, 1896. § Commenced business Oct. 1st, 1897. ‡ Commenced business April, 1897.

It is not pretended that these figures alone should be a guide in the selection of a company to insure in, inasmuch as they do not represent the *summum bonum* of any company, but are given simply to enable the reader to obtain an idea of the business transacted by some of the principal companies operating in Canada. In selecting a company to insure in, the main points to be observed are:

(1) Its financial strength, to be tested by a comparison of the assets with the liabilities;

(2) An examination of the profit-earning power of the company;

(3) Of its expense ratio;

(4) Of its premium rates;

(5) Of the conditions and privileges of its policy contract, etc.

The death-rate of the active companies for the last eight years, is as follows:—

| Year. | Death-rate per 1000. | Year. | Death-rate per 1000. |
|---|---|---|---|
| 1897 | 10.907 | 1893 | 10.176 |
| 1896 | 10.095 | 1892 | 10.676 |
| 1895 | 11.166 | 1891 | 10.178 |
| 1894 | 10.327 | 1890 | 10.148 |

### PLANS OF INSURANCE.

Policies are divided into two main classes, ordinary life and endowment. The life policy is payable at death only, the endowment at the end of a specified period (usually 10, 15, 20 or 25 years), or at death, if that should occur sooner. The life policy is usually secured for protection for the family, while the endowment policy fulfills a double object, viz.: provision for the family in case of death within the endowment term, and a competency to the insured should he survive the period. The life policy may be secured with premiums payable each year that the life enters upon, or, which is more preferable and popular at the present time, by a limited number of payments; for example, a twenty-payment life, after running for twenty years is paid up, but the insurance is not payable until death. Similarly, fifteen and ten-payment life policies are paid up after fifteen and ten annual payments respectively, but are not payable until death.

The endowment policy is generally secured by annual premiums payable for the same number of years as the endowment term, but this policy is sometimes written with premiums payable only through a portion of the term. For example, a twenty-year endowment by ten payments is a policy payable twenty years hence, or at prior death, with payment of premiums limited to the first ten years of the policy. The premium rates of all the regular life companies doing business in Canada are very similar, differing only, as a rule, by a few cents. The rates of the American companies are invariably higher than those of Canadian companies. Of late years considerable business has been done by certain companies and societies on what is known as the assessment or natural premium plan of assurance. This system is correct in theory, provided a premium is paid yearly in advance, which annually increases according to the annual increasing mortality rate, consequent upon the age of the insured increasing and the greater liability to death. The premiums begin light and end heavy. The level premium system recognizes the increasing cost of the insurance as age increases, and begins somewhat heavier than the natural premium rate, but does not increase.

### DIVIDENDS.

A great change has come over the business within the past fifteen or twenty years in regard to profits or dividends. Usually it was the practice to allocate the profits to the policy at the end of each year or each five years, but now the accumulative system of profits is almost universally adopted. The accumulative system is known under a variety of names, but practically all signify the same thing, viz.: a reservation of the profits for a period selected by the insured, usually 10, 15, 20 or 25 years. Those who discontinue or die during the term forfeit their profits to those who continue their policies and are fortunate enough to survive the period selected.

# HISTORICAL DIARY FOR 1897-98.

## NOVEMBER, 1897.

1—An important step in the settlement of the troubles of the India frontier is announced. The Maddahkel chief, Sadda Khan, and his brother surrender to the British.

Marshal Blanco issues a proclamation to the Cubans, urging them to lay down their arms. General Weyler leaves Cuba for Spain, having yielded up his command to Blanco.

2—The first municipal election in Greater New York results in the victory of Mr. Van Wyck, the Tammany candidate, by a plurality of over 80,000.

Returns from the Newfoundland general elections show that the Opposition party, headed by Sir James Winter, has gained a majority of the seats.

3—Rt. Hon. Jos. Chamberlain is installed Lord Rector of Glasgow University.

4—At a meeting of the Canadian Cabinet it is decided to extend the reciprocal clause of the new tariff to Japan and the Netherlands.

A French force which had occupied Sakhi, one of the posts in the Lagos Hinterland, evacuates the place on the arrival of British troops.

6—Two bye-elections held in Quebec (Rimouski and Temiscouata) result in the return of two Liberals by acclamation.

7—Various reconnaissances and foraging expeditions from the camp of General Sir William Lockhart in the Maidan Valley capture large supplies of provisions and forage without opposition until they are returning, when the insurgent tribesmen adopt their usual guerilla tactics, with the result that the British forces lose three killed and have seventeen wounded.

8—The new Lord Mayor of London, Mr. Horatio David Davies, M.P. for Chatham, is formally installed in office at the Guildhall, succeeding Sir George Faudel Philips.

9—Lord Mayor's Day in London.

A British force under Brigadier-General Westmacott is attacked in the Maidan Valley by insurgent tribesmen and loses 50 men.

The Canadian budget of 1898 is presented by Finance Minister Fielding. Its chief features are: (1) a completion of the pro-British tariff of 1897, providing that beginning 1st July, all imports from Britain shall come in at a duty of 25 per cent. less than that levied upon goods from foreign nations; (2) a provision to aid the West Indies by admitting their products at the full reduction of 25 per cent.; a similar provision for any other British colony or possession, the customs tariff of which is on the whole as favorable to Canada as the British preferential tariff is to such a colony or possession; provided, however, (*a*) that manufactured articles admitted under such preferential tariff be *bona fide* manufactures of a country or countries entitled to the benefits of such tariff; and (*b*) that such benefits shall not extend to the importation of articles into the production of which there has not entered a substantial portion of the labor of such countries. Any question that may arise as to any article being entitled to such benefits shall be settled by the Minister of Customs, whose decision shall be final. Estimated income for current fiscal year ending June 30 is $39,300,000; estimated expenditure, $38,750,000.

United States Consul-General Lee is ordered to return from Havana.

7—The representatives of the six powers (Germany, Austria, France, Great Britain, Italy, Russia) call on President McKinley, and address, in the name of their respective governments, a pressing appeal to the feelings of humanity and moderation of the President and the American people in their existing differences with Spain. President McKinley says the Government of the United States is making "earnest and unselfish endeavors to fulfil a duty to humanity by ending a situation the indefinite prolongation of which has become insufferable."

It is announced that China has agreed to the French demands of (1) the non-alienation of any part of the provinces of Kwang Tung, Kwang Si or Yun Nan; (2) the construction of a railway to Yun Nan Fu; (3) the lease of a coaling station; and (4) the appointment of a Frenchman as Director of the Imperial Post.

Death of Margaret Mather, the actress.

8—The Anglo-Egyptian forces under the Sirdar, Gen. Sir Herbert Kitchener, win a brilliant victory over the Dervishes at the Atbara. Mahmoud, the Dervish general, is captured. The Sirdar's force numbers 13,000, that of the enemy rather greater; 4,000 Dervishes captured. British loss—Captain Urquhart of the Cameron Highlanders and Lieutenant Gore of the Seaforth Highlanders, killed; 10 officers of the British brigade and 4 officers in the Egyptian service, wounded; 10 rank and file killed and 90 wounded. Egyptian loss—51 killed and 14 officers and 319 men wounded. About 2,000 Dervishes killed.

President Crespo of Venezuela is killed while engaged in battle with Hernandez, leader of the rebel forces.

18—The United States House of Representatives amends the Cuban resolution passed by the Senate by striking out the recognition clause.

19—The United States Senate and House of Representatives finally agree upon the Cuban resolution with the clause disclaiming any intention on the part of the United States to acquire Cuba. The text as finally adopted reads: "Joint resolution for the independence of the people of Cuba demanding that the Government of Spain relinquish its authority and government in the Island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters, and directing the President of the United States to use the land and naval forces of the United States to carry these resolutions into effect. Whereas, the abhorrent conditions which have existed for more than three years in the Island of Cuba, so near our own borders, have shocked the moral sense of the people of the United States, have been a disgrace to Christian civilization culminating as they have in the destruction of a United States battleship with 266 of its officers and crew, while on a friendly visit in the harbor of Havana, and cannot longer be endured, as set forth by the President of the United States in his message to Congress of April 11, 1898, upon which the action of Congress was invited, therefore, Resolved by the Senate and the House of Representatives of the United States in Congress assembled: (1) That the people of the Island of Cuba are, and of right ought to be, free and independent. (2) That it is the duty of the United States to demand, and the Government of the United States does hereby demand, that the Government of Spain at once relinquish its authority and government in the Island of Cuba and withdraw its land and naval forces from Cuba and Cuban waters. (3) That the President of the United States be, and he hereby is, directed and empowered to use the entire land and naval forces of the United States and to call into the actual service of the United States the militia of the several States to such extent as may be necessary to carry these resolutions into effect. (4) That the United States hereby disclaims any disposition or intention to exercise sovereignty, jurisdiction or control over said island, except for the pacification thereof, and asserts its determination when that is accomplished to leave the government and control of the island to its people."

Death of George Parsons Lathrop, poet and novelist.

20—President McKinley signs the joint resolution of Congress declaring for war, if necessary, to secure the liberation of Cuba from Spain. An ultimatum is sent to Spain, demanding that Spain withdraw her army and navy forces from Cuban waters, and stating that if a satisfactory answer is not received before noon, Saturday April 23, the President will proceed to carry the resolutions of Congress into effect. Senor Polo y Bernabe, Spanish Minister at Washington, is given a copy of the ultimatum. He requests his passports, and entrusts the Spanish interests to the French Ambassador and to the Austrian Minister.

The Queen-Regent of Spain opens the Cortes and declares for war.

21—The ultimatum of the United States is received in Spain. The Spanish Government immediately breaks off diplomatic relations with the United States, giving Minister Woodford his passports.

Mgr. Begin is enthroned Archbishop of Quebec.

# ÆTNA'S 20-Year Endowment

Save your money by investing it, year by year, in a Twenty-Year Endowment Policy, with Profits, issued by the ÆTNA LIFE INSURANCE COMPANY, of Hartford, Conn. This is the only Company which has ever made an annually-increasing Cash Dividend for so long a period as 25 years without a miss.

What the ÆTNA LIFE'S Profits amount to is very clearly shown in the following statement of the cost of a 20-Year Endowment of $10,000 upon the age of 44 at entry, which has just matured and been paid. The Annual Cash Profits reduced its annual premium from $509.10 to but little more than half that sum.

To have something to compare with, we also give the lowest level-premium rates (without profits) at which six other companies are writing $10,000 Policies on the straight 20-payment Endowment Plan at that age of entry, as shown by their Rate-books now in use.

Three of them use a uniform rate, viz., the North American and the Manufacturers of Toronto, and the Sun of Montreal. Therefore one column answers for them, headed "Three Co's."

13—The Rt. Hon. William St. John Brodrick, member of Parliament for the Guildford division of Surrey, and Under-Secretary of State for War, is appointed Under-Secretary of State for Foreign Affairs, in succession to Lord Curzon of Kedleston, the new Viceroy of India.

It is reported that Chief Samory, a West African chieftain against whom France sent a punitive expedition about two years ago, after he had surprised and routed a detachment of French troops, has been at last captured.

14—The British steamer Mohegan, belonging to the Atlantic Transport Company, is wrecked in the vicinity of the Lizard. A large number of lives lost.

The Hon. W. P. Schreiner, the Afrikander leader, and former Attorney-General of Cape Colony, whose motion of want of confidence in the Government recently overthrew the Gordon-Sprigg Ministry, succeeds in forming a new Cabinet.

15—A Russian regiment occupies the town of New Chwang and the forts at the mouth of the River Liaou, thus securing complete possession of New Chwang. A British gunboat in the river at the time makes no resistance—a fact taken to mean the virtual British abandonment of the whole of Manchuria to the Russians, with the resulting loss to Britain of the New Chwang trade, of which she has 80 per cent.

16—Ismail Bey, Turkish Military Governor, informs the admirals of the foreign warships that the Sultan has ordered the withdrawal of all the Turkish troops in Crete, in compliance with the joint note from Great Britain, Russia, Italy and France.

18—Most Rev. C. H. Gauthier, D.D., is consecrated Archbishop of the Diocese of Kingston, to fill the vacancy caused by the death of Archbishop Cleary.

The Americans take formal possession of Porto Rico.

Mr. W. P. Schreiner, the new Premier of the Cape, makes a statement of the policy of his Government in the Assembly. The Government will recognize the independence of the South African Republics, and will introduce a proposal for a contribution on the part of the colony to the British navy.

Seven Mussulmans, convicted of the murder of British soldiers in Crete, are executed.

The German Emperor visits the Sultan of Turkey at Constantinople on his way to the Holy Land.

19—Death of Harold Frederic, the well-known writer and London correspondent of the New York *Times*.

20—The Chilian Cabinet resigns.

The Corean Cabinet resigns.

23—A yellow book issued by the French Government on the Fashoda affair.

25—General Chanoine, Minister of War, resigns in the Chamber of Deputies in consequence of adverse criticism. An exciting scene follows. A resolution calling upon the Government to "end the campaign of insult against the army" is carried. The Brisson Cabinet consequently resign.

27—At a meeting of the British Cabinet it is decided that Major Marchand must be withdrawn unconditionally from Fashoda.

President Faure asks M. Dupuy to form a Cabinet in succession to the Brisson Ministry, resigned.

The Court of Cassation, which is to decide upon the question of the reopening of the case of Alfred Dreyfus, the prisoner of Devil's Island, who is alleged to have been falsely convicted of selling important military plans to agents of a foreign power, opens.

An important Ontario bye-election in East Wellington. The Hardy Government, in the person of Hon. J. M. Gibson, Commissioner of Crown Lands, secures a victory.

29—The Court of Cassation decides to grant a revision of the Dreyfus case, and will institute a supplementary inquiry. The court, however, declines to order the release of Dreyfus.

The Emperor and Empress of Germany visit Jerusalem.

31—The new French Cabinet is completed under the Premiership of M. Dupuy. M. de Freycinet becomes Minister of War.

Death of Helen Faucit (Lady Martin), celebrated English actress who retired from the stage many years ago.

## Summer Resorts North of Quebec

Through the Magnificent Scenery of the Laurentides

THE CANADIAN ADIRONDACKS

Trains connect at Chicoutimi with Saguenay steamers during season of navigation for TADOUSAC, CACOUNA, MURRAY BAY and QUEBEC, a round trip unequalled in America, through matchless forest, mountain, river and lake scenery, down the majestic Saguenay by daylight and back to the Fortress City, touching at all the beautiful sea-side resorts on the Lower St. Lawrence, with their chain of commodious hotels.

ELEGANT PARLOR AND SLEEPING CARS

Good Hotel accommodation at Lake St. Joseph, Lake Edward, and Roberval. Excellent fishing for trout and fresh water salmon.

The HOTEL ROBERVAL, lighted by electricity and furnished with every modern convenience, has accommodation for 300 guests. A new and commodious hotel—THE ISLAND HOUSE—has been built on an island in the Grand Discharge fishing grounds, and is run in connection with Hotel Roberval. These Hotels control the fishing rights of Lake St. John and tributaries, all of which are free to the guests of the Hotels.

A commodious steamer, "The Mistassini," runs daily during the tourist season between Roberval and the Island House, Grand Discharge, thirty miles distant.

The finest Wheat lands in the Province of Quebec are now offered for sale by the Provincial Government in the Lake St. John Territory.

*TO MANUFACTURERS*—A number of very fine water powers are available along the line, suitable for pulp and paper mills or other industries, with an abundant supply of timber and cheap labor, and special advantages are offered to parties establishing such industries.

## ARE YOU RUPTURED?

THEN TRY THE *LINDMAN TRUSS*

For safety, comfort and durability it is unequalled, and is warranted to hold any reducible hernia. This Truss, on account of the pivot point, adapts itself to any motion or position of the body, so that when a proper fit is secured its presence is never known. There is not a Truss in the market giving anything like the satisfaction of this Truss. *See testimonial below, and call or write for many others from leading physicians and wearers of the Truss.*

2418 St. Catherine St., Montreal. **B. LINDMAN,**

Rossin Block, 85 York St., Toronto, Ont. Expert in the Mechanical treatment of Hernia or Rupture.

W. J. C. Allen, of McDonald & Allen, Kingston, Ont., writes under date Sept. 16th, 1896, as follows:—"I have been badly ruptured for the past nine years, and during that time have been fitted with many different kinds of trusses, manufactured not only in Canada but in the United States, without obtaining relief. On April 19, 1896, I purchased from you a Truss, being advised by a physician to do so, and I feel confident that I am now perfectly cured. I can assure you that I feel thankful for the results, and if you wish you can refer to me for reference."

## The Battle of the Strong

(JUST PUBLISHED)

A ROMANCE OF TWO KINGDOMS

This strong romance deals with Jersey and La Vendée, and discovers in the former a field for romance so unique and fascinating that we only wonder at the lateness of its annexation.

## The Translation of a Savage

This decidedly original story tells how a young English gentleman in the service of the Hudson Bay Company marries an Indian girl, Sali, out of pique, and sends her home to shame his friends. Their brave reception of her, and the wonderful development of her natural dignity afford a striking and extraordinary character study.

## The Trespasser

The career of Gaston Belward, the son of a Canadian half-breed mother and an English father, his social and political success in his father's ancestral home, and the reasserting of his wild nature in a sensational love affair make an unusually interesting study in heredity.

## Pierre and His People

TALES OF THE FAR NORTH

"Pierre is a typical example of the blended French and Indian races. A vivid description is given of his faults and virtues, and of the life of trapper, trader, clerk and factor, in the great Hudson's Bay region, a region as vast as the whole of the United States."—*Methodist Magazine and Review.*

## A Romany of the Snows

FORMERLY PUBLISHED UNDER THE TITLE OF "AN ADVENTURER OF THE NORTH"

Being a continuation of the personal histories of "Pierre and his People," and the last existing records of pretty Pierre.

## A Lover's Diary

(POEMS)

Richard H. Stoddard, a fine critic of verse, says that "one must look to the Elizabethan lyrists to find poems so full of luscious life as those by Mr. Parker."

## When Valmond Came to Pontiac

THE STORY OF A LOST NAPOLEON

"Is thus far his finest and most finished work, and it would be hard to name the merit such a book should have which this one does not possess."—*The Critic*, New York, Oct., 1898.

## The Trail of the Sword

Wherein is set forth the history of Jessica Leveret, as also that of Pierre le Moyne of Iberville, George Gering and other bold spirits; together with certain matters of war, and the deeds of one Edward Bucklaw, mutineer and pirate.

## Mrs. Falchion

"This story is a splendid study of character, illumined by subtle touches of observation which reveal a no common grasp of human nature."—*Athenæum.*

## The Seats of the Mighty

A ROMANCE OF OLD QUEBEC

(CLOTH, SPECIAL DESIGN, $1.50)

"The glory of a romance is its plot, and this plot is crowded with fine sensations, which have no rest until the fall of the famous old city and the final restitution of love."—*Pall Mall Gazette.*
